

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

The Publishers,

We have at last the pleasure of offering to our patrons our new AMERICANA CATALOGUE, which has been so long delayed.

This one, of course, cancels all former Catalogues as to prices. It represents in a measure the general character and variety of our usual stock in this department. There are a large number of works which we aim to keep constantly on hand, but these necessarily vary somewhat in price, according to their condition, increasing scarcity, etc. Our stock is constantly changing; many books which pass through our hands are never catalogued, being disposed of as soon as received, or taken to fill standing orders.

While we have in many cases duplicates, yet, of a large number, we have only single copies; to secure these early orders are desirable.

We have left in this Catalogue the titles of some rare works, unpriced, which we have not in hand, but which we occasionally have. Librarians and private buyers will find it to their advantage to send us, from time to time, lists of books wanted, whether on this catalogue or not, as we have special facilities for the collection of rare or out of print works of this class.

Letters of inquiry meet with prompt attention.

ALZOG. A MANUAL OF UNIVERSAL CHURCH HISTORY. By Rev. JOHN ALZOG, D.D., Professor of Theology at the University of Freiburg. Translated from the ninth enlarged and improved German edition, and edited and brought down to the present time, by the late Rev. F. J. Pabisch, D.D., late President, and Rev. Thomas S. Byrne, D.D., President of Mount St. Mary's of the West, Cincinnati. 3 vols. Vol. I. Early Church History. Vol. II. The Middle Ages. Vol. III. To the Present Time. 8vo. Cloth. (*The volumes are sold separately.*) 10 50

To the publishers we can not sufficiently express our obligations for the generous and able manner in which, regardless of expense, they have presented the History to the public.—*Extract from the Preface to the Third Volume, by J. B. Parcell, Archbishop of Cincinnati.*

At last we have a history of the Church in English, and in such English as reflects infinite credit on the scholarship of the Rev. Thomas S. Byrne, just as the uncommon accuracy and number of references to standard German authors attest the vast learning of Dr. Pabisch. It is a scholarly performance, brought to a most successful issue by two devoted men, at the cost of how much toil and painstaking, scholars alone can tell. We thank the two reverend authors for a priceless boon. They have filled a void in English literature, and satisfied a want long and deeply felt. To the publishers, also, a just meed of praise is due. The style in which these volumes are issued, and the very beauty of the colored maps, so scrupulously prepared by Dr. Pabisch, will, we trust, be fully appreciated by the Protestant and Catholic public alike.—*N. Y. Tablet.*

We have to thank our American brethren in the faith for a most valuable addition to our libraries, and for a book which will be most useful as a book of reference to every English priest, as well as an indispensable manual for the student of ecclesiastical history.—*London Tablet.*

It has long occupied a high rank among histories in the leading universities of the world. On critical points, its authority is unimpeachable. We have no doubt the translation will be cordially welcomed, and be universally adopted in the Catholic colleges in the United States. Dr. Pabisch is eminently fitted by his great and varied learning for the difficult task he has assumed.—*Catholic Telegraph.*

One great charm of Alzog's work is the perfect and systematic arrangement. Every thing is in its place, and easily found. The book is enriched with an admirable table of contents. It is concise without being dry; and, from the mass of authorities cited, may easily be made the foundation for immense research.—*Catholic Standard, London.*

ALDRICH. THE TRAVELS OF THREE INSECTS. By ANNA M. ALDRICH. Illustrated by Mary N. Morrison. 4to. 75

ANDERSON. SIX WEEKS IN NORWAY. By E. L. ANDERSON, author of "Northern Ballads." Sq. 16mo. Cloth. 1 00

ANDRE. THE COW CHACE: An Heroic Poem in Three Cantos. Written at New York, 1780. By the late MAJOR ANDRE, with explanatory notes by the Editor. London. Printed for John Fielding, No. 23 Pater-Noster Row, 1781. Reprinted from this rare quarto edition, with the original preface, notes, etc. 8vo. Paper. 75

The poem is a humorous description of the defeat of the "rebel generals, Wayne and Irving," and is a candid expression of the contempt and ridicule in which our brave Revolutionary fathers were held by their British foes. . . . Of the poem itself we reproduce only the last stanza, which, if not pathetic, seems certainly to have been prophetic of the sad fate of the author:

"And now I've closed my epic strain,
I tremble as I show it,
Lest this same warrio-drover, Wayne,
Should ever catch the poet."
Additional interest is lent to the poem, from the fact that the above stanza was printed on the very day that Major Andre was taken prisoner.—*Cincinnati Gazette*.

ANTRIM. THE HISTORY OF CHAMPAIGN AND LOGAN COUNTIES, OHIO, from Their First Settlement. By JOSHUA ANTRIM. 12mo. Clo. 1 50

BABY'S RECORD. A Twofold Gift for Mothers and Children. Small. 4to. Cloth. 1 25

BASSLER. THE WEATHER: A PRACTICAL GUIDE TO ITS CHANGES. Showing Signal Service System, and How to Foretell Local Weather. By S. S. BASSLER. Illustrated by Plates and Weather Maps. 8vo. Paper. 25.

Mr. S. S. Bassler, the meteorologist, has published a very able and instructive pamphlet of fifty-four pages, large octavo, thoroughly illustrated, entitled "The Weather: A Practical Guide to Its Changes. Showing Signal Service System, and How to Foretell Local Weather." It is the first of the kind we ever saw or heard of; and as it instructs any body who can read how to become a "weather prophet," it should have a large sale among farmers, and all others

whose occupation, curiosity or interests lead to the desire to know whether or not we shall have a "goodly day to-morrow." Mr. B.'s work is "Indications" and "Old Probabilities" brought within the popular comprehension—simply reduced to a "dot," so to speak. The author is the recipient of much praise for the general correctness of his predictions.—*Cincinnati Commercial Gazette*.

BELL. CINCINNATI WATER WORKS. A History of the Cincinnati Water Works. By THOMAS J. BELL, Assistant Superintendent. 13 plates. 8vo. Paper. 75

A complete history of the water supply of Cincinnati, from the first water cart, in 1802, to the present time; with descriptions and illustrations of the machinery used, and in use, reservoirs, etc.

BENNER. PROPHECIES IN FUTURE UPS AND DOWNS IN PRICES.

What Years to Make Money on Pig-Iron, Hogs, Corn, and Provisions.
By SAMUEL BENNER, an Ohio farmer. Eighth edition, with Forecasts for
1892. 24mo. Cloth. 1 00

Bankers, pork-packers, farmers, merchants, and speculators, will find it to their advantage to study the facts as presented in this book, and the theories and prophecies based on them.

This is a book of books, and should be in the hands of every business man. In a clear, plausible and truthful way it reveals in what years to make money on pig-iron, hogs, corn, provisions, etc., and will be found of great value to persons engaged in the industries to which it is dedicated. The author reasons from analogy, as well as statistics compiled from close observations through many years, and supports his predictions regarding future panics and future

prices of pig-iron, pork, etc., with a philosophic course of reasoning which can not fail to impress all and convince many.—*N. Y. Commercial Pathfinder*.

This is a peculiar little volume, and the information is most invaluable, as it furnishes us with rules by which we can foretell the future rise and fall of prices of commodities, and gives us a basis for calculation where guessing was the only dependence before.—*Iron World*.

BIBLE (THE) IN THE PUBLIC SCHOOLS. Records, Arguments, Opinions, and Decisions in the case of John D. Minor et als. v. The Board of Education of the City of Cincinnati et als., in the Superior Court of Cincinnati. 8vo. Cloth. 2 00

ARGUMENTS of Ramsay, Sage, and King, in favor of the Use of the Bible.
(Separate from the above.) 8vo. Paper. 50

ARGUMENTS of Stallo, Hoadly, and Matthews, against the Use of the Bible.
(Separate from the above.) 8vo. Paper. 50

This litigation began in an application on behalf of certain citizens to restrain, by an injunction, the enforcement of the order of the Board of Education forbidding the use of religious books, including the Bible, in the common schools of Cincinnati.

The questions at issue are not of local or temporary interest. They enter into that larger religious controversy, involving the whole subject of the true relations of the civil and religious state—the secular society and the church—which, in different forms, but the same in substance, agitates and divides opinion on the two continents in which modern civilization is most advanced and developed.

Attention is directed to the thorough examination which this subject underwent in the case of *Minor v. Board of Education*, in the Superior Court of Cincinnati, and to the masterly arguments made at the bar. The case shows how important it is that the investigations of a lawyer, especially on constitutional questions, should take a wide and liberal range, and that he should make

himself thoroughly familiar with the fundamental principles of the government under which he lives. The arguments of counsel are deserving for their ability and research, as well as the importance of the subject discussed, of the most careful and thoughtful examination.—*Cooley's Blackstone*.

BIBLIOTHECA AMERICANA. 1892. Being a Priced Catalogue of a large collection of Books and Pamphlets relating to America. 8vo. Paper. In press.

BLANNERHASSETT PAPERS (THE). Embodying the Private Journal of Harman Blennerhassett, and the hitherto unpublished Correspondence of Burr, Alston, Comfort Tyler, Devereaux, Dayton, Adair, Miro, Emmett, Theodosia Burr Alston, Mrs. Blennerhassett, and others, their Contemporaries, devolving the purposes and aims of those engaged in the attempted Wilkinson and Burr Revolution: embracing also the first account of the "Spanish Association of Kentucky" and a Memoir of Blennerhassett. By WILLIAM H. SAFFORD. With a portrait of Blennerhassett. 1 volume. 8vo. 665 pages. 3 00

These private papers were obtained from his son, Joseph Lewis Blennerhassett, by Mr. Safford, after he had written and published his *Life of Blennerhassett*. In the selection and arrangement of the materials, he has endeavored impartially to place before the public every important fact connected with the subject. Having no object to conceal the faults or infirmities, nor inclination to apologize for the acts of Blennerhassett, the author has been careful to suppress nothing to shield him from censure, nor has he invented excuses to extenuate his conduct. Wherever it has been necessary for the interest of the work and the information of the reader that the motives by which Blennerhassett was actuated should be disclosed, he has not hesitated to reveal them, even though it involved the invasion of private correspondence.

BOUQUET. EXPEDITION AGAINST THE OHIO INDIANS IN 1764. An Historical Account of the Expedition against the Ohio Indians, in the year MDCCLXIV, under the command of HENRY BOUQUET, Esq., Colonel of Foot, and now Brigadier-General in America, including his Transactions with the Indians, relative to the Delivery of their Prisoners, and the Preliminaries of Peace, with an Introductory Account of the Preceding Campaign, and Battle of Bushby-Run. To which are annexed Military Papers, containing Reflections on the War with the Savages; a Method of Forming Frontier Settlements; some Account of the Indian Country; with a List of Nations, Fighting Men, Towns, Distances, and Different Routes; Published from Authentic Documents by a Lover of his Country (*Dr. William Smith*, Provost of the College of Philadelphia). With a Preface by *Francis Parkman*, author of "Conspiracy of Pontiac," etc., and a Translation of *Dumas'* Biographical Sketch of General Bouquet. The map and plates are finely reproduced by the photo-lithographic process. 8vo. \$3.00 Cloth, large paper. 6 00

A better initial volume to the *Ohio Valley Historical Series* could not be desired than this. Every thing is in its favor—the beauty of the volume itself—an invariable characteristic of whatever leaves its publishers' press; the rarity of the work reprinted, the importance in the history of our anti-revolutionary colonizations of the events which occasioned the expedition; and by no means the least, the brief explanatory preface added by Mr. Francis Parkman. . . . So that, while the antiquarian or historian will get most out of the work, the average reader will find in it no small pleasure along with the side light it throws upon the events of a

period of which popular ideas are vague and undefined.—*Round Table*.

The whole narrative is most entertaining for the interest of the subject, and for the quaintness of that highly literary style of the last century in which it is written. . . . Its quaintness every one must relish, and none can help noticing the clearness and solidity of the narration. . . . It is an enterprise to which we heartily wish success, both for the valuable matter it will preserve for the use of the student, and the pleasure it will afford the general reader.—*Atlantic Monthly*.

BOYLAND. SIX MONTHS WITH THE FRENCH ARMY. Six Months under the Red Cross, with the French Army. By GEORGE HALSTEAD BOYLAND, M.D., Ex-Chirurgien de l'Armée Française. 12mo. Cloth. 1 50

Dr. Boyland has had the fortune to write a book of the rarest kind in literature; a book with apparently no more literary premeditation than Pepy's Diary or Benvenuto Cellini's Autobiography, and having a simplicity, straightforwardness, and business-like clearness that refreshes the jaded critical sense at every moment. He sets down his surgical experience with an exactness that we imagine must commend his reminiscences to his profession; but his value to us is the vigor with which he gives the conditions of this experience, from the time he leaves Paris, amidst the arrogant enthu-

slasm of the French army and people, till, after the long siege of Metz and the capitulation of the starved garrison, he rides into the Prussian lines at Versailles. . . . It would be unjust to his book to leave the reader with the impression that it is merely a series of sketches, however powerful. It is not only a careful record of surgical experience, but a comment full of instruction upon the management of the French army, especially at Metz, where Doctor Boyland shared the common suspicion of Bazaine.—*Atlantic Monthly*.

BRUNNER. ELEMENTARY AND PRONOUNCING FRENCH READER.

Containing Pronouncing Rules and Exercises on French Pronunciation; a Selection of Interesting Anecdotes; a Concise Treatise on French Verbs; and a Vocabulary of all the Words contained in the Work, with concise Rules for acquiring the Gender of French Nouns. By ALPHONSO A. BRUNNER. Fourth edition. 18mo. Half bound. 60

BUCK. THE NATURE AND AIM OF THEOSOPHY. An Essay. By Dr. J. D. Buck. Square 24mo. Cloth. New edition. 75

BUCK. A STUDY OF MAN, AND THE WAY TO HEALTH. By J. D. BUCK, M.D. 8vo. Half russias. 2 50

It is more helpful, and leaves far more hopeful impressions on the mind than Pope's "Essay" on this subject. . . . Every one who can, ought to read the section on health and disease, especially for its excellent setting forth of how to attain health by

common sense hygiene and care, rather than by drugs. . . . The work is eminently thoughtful, suggesting more than it explains, and leading its readers to think still further for themselves.—*Public Opinion, Washington, D. C.*

BURKE. BRICK FOR STREET PAVEMENTS. An Account of Tests made of Bricks and Paving Blocks, with a brief discussion of Street Pavements and the methods of constructing them. By M. D. BURKE, C. E. 8vo. Paper. Net. 50

Samples of fifteen varieties of bricks or blocks manufactured for street paving were furnished the writer of this pamphlet, for testing. Each variety being from a different establishment, and coming from leading manufacturers, they represent the paving brick of the day as made in various parts of the United States. They were chemically analyzed, subjected to tests for determining their respective percentages of absorption, their specific gravity, their transverse strength, their crushing strength, and their resistance to abrasion and impact. The samples, the methods of preparing them, the work of testing, and the results obtained, are set out in detail and condensed in tabular form.

There is a short discussion of street pavements in general, and of municipal methods in the construction and care of public works as seen from the stand-point of a practical engineer.

The brick-maker will find valuable hints upon the chemistry and manner of drying and burning bricks for street paving, and villages and cities now discussing the paving problem will not only be interested but benefited by a study of this pamphlet, because it shows that good work only can be economical.

BURT. THE FAR EAST; or, Letters from Egypt, Palestine, and other Lands of the Orient. Illustrated with engravings, maps, etc. By N. C. BURT, D.D., author of "Home Among the Gospels," "The Land and its Story," etc. 12mo. Cloth. 1 75

Having passed over much of the ground, and mingled in the very scenes described, we take great pleasure in commending the correctness of its general descriptions; and having made use of letters written on the spot and at the time, there is a special freshness and zest about the work. Dr. Burt evi-

dently possesses a genial nature, and has the admirable talent of being able to travel in all sorts of ways, and among all sorts of people, without continually finding fault and distressing his readers with complaints. —*Christian Instructor.*

BUTTERFIELD. THE HISTORY OF THE GIRTYS. A concise account of the Girty brothers—Thomas, Simon, James, and George, and their half-brother, John Turner. Also the part taken by them in Lord Dunmore's War, in the Western Border War of the Revolution, and the Indian War of 1790–1795. With a recital of the Principal Events in the West during these Wars. By CONSUL W. BUTTERFIELD, author of "Crawford's Campaign," etc. 8vo. Cloth. 3 50

A valuable volume, well printed on good paper, worthy of the imprint of its publishers, who have earned deserved distinction in the publication of historical works. The author is unquestionably the best informed of all the writers who have found a theme in the stirring scenes of the expulsion of the Indians from Pennsylvania and Ohio.

... This relation of the career of those notorious brothers is a result of careful and painstaking sifting of documents, narratives, accounts published by returned captives, life sketches of prominent leaders and actors in the struggle, and official reports of various expeditions and campaigns. It is full of interest as a biography, and as a history of events in border warfare, when the issue was uncertain and every-day life perilous. The volume is timely, and fills a long felt want.—*New England Historical and Genealogical Record.*

The thrilling adventures of Simon Girty have often been told, and the "White Indian" was the bugbear of many a border family in the years of the Revolutionary war and those just following it; but the story has never been related with so great detail, and with such truthfulness as in Consul W. Butterfield's "History of the Girtys." The volume is more than simply biographical, it is an admirable historical sketch of the border warfare, which, though the most cruel and exasperating attendant

of the Revolution, is usually obscured in history by the more striking incidents of the struggle in the East and South. Yet nothing could be more romantic, more exciting, or more thrilling, than the details of the warfare waged by the savages along the frontier of the West. . . . Mr. Butterfield has corrected many current errors in regard to Simon Girty's life, and examines with impartiality the evidence which connects him with atrocious crime. Incidentally the history of all the brothers is related, and the appendices contain valuable transcripts from various sources not easy of access.—*The Critic.*

It is an attempt, very successful, to clear up the account of the part taken by the famous Girty brothers in our Revolution, and in the Indian war of 1790–95. The work is much more than a biographical narrative, embracing as it does much matter important to a full view of the settlement of our great interior states. The author presents the first faithful picture of these notorious men which we have in our literature. His work has been done with care and fullness of research.—*Public Opinion.*

The book, with all its notes, foot-notes, copies of ancient documents, etc., is entertaining, and calculated to convey a lively conception of the baptism of blood through which the north-western pioneers passed in Indian days.—*The Nation.*

BUTTERFIELD. DISCOVERY OF THE NORTHWEST. The Discovery of the Northwest in 1634, by John Nicolet, with a Sketch of his Life. By C. W. BUTTERFIELD, Author of "Crawford's Campaign," etc. 12mo. Cloth. 1 00

The book is a complete and exhaustive account of the life and explorations of Nicolet, amply fortified by citations from the original authorities, and provided with a good index.—*The Evening Post, N. Y.*

The author has studied his subject with

considerable diligence, and gives an abundance of foot-notes, many of which are from the French Narratives that furnish the groundwork of his story. This volume is well worth having.—*Magazine of American History.*

BUTTERFIELD. THE WASHINGTON-CRAWFORD LETTERS. Being the Correspondence between George Washington and William Crawford, from 1767 to 1781, concerning Western Lands. With an Appendix, containing later Letters of Washington on the same Subject, and Letters from Valentine Crawford to Washington, written in 1774 and 1775. Chronologically arranged and carefully annotated by C. W. BUTTERFIELD, author of "Crawford's Campaign," etc. 8vo. Cloth. 1 00

This correspondence throws a good deal of light upon early western history, besides adding something to our knowledge of Washington's early life and plans. The letters are given in their chronological order, with carefully written notes; and the editor rightly regards his work as a contribution of some value to the country's store of historical materials.—*New York Evening Post*.

They are all interesting and historically important, as throwing light on Wash-

ton's early history, and on the history of the time, particularly as showing the craving which existed among the prominent men of Virginia and Pennsylvania, at that period, to become large landed proprietors. The letters throw some light incidentally on points of history, beyond the subject on which they were specially written. The notes by the editor add to the value of this book, which is worthy of a place in all historical libraries.—*Literary World*.

CARR. THE MOUNDS OF THE MISSISSIPPI VALLEY, HISTORICALLY CONSIDERED. By LUCIEN CARR, Assistant Curator Peabody Museum of American Archæology and Ethnology. Cambridge, Mass. 4to. Paper. 1 50

This essay is an argument in favor of the theory that the mound-builders were the ancestors of the present Indians. He argues, with the aid of many citations from historians, chroniclers, and travelers, that the Indians of the Mississippi Valley lived in fixed villages, which they were in the habit of fortifying by palisades; that they raised corn

in large quantities, and stored it; that they all worshiped the sun, as the mound-builders are supposed to have done; and that works similar to those of the mound-builders, if not quite as extensive, are known to have been erected by Indians.—*Popular Science Monthly*.

CHRISTOPHER. CHEMICAL EXPERIMENTS FOR MEDICAL STUDENTS. Arranged after Beilstein. By W. S. CHRISTOPHER, M.D. 16mo. 1 00

In the limited time available for practical chemistry in most medical colleges, it becomes desirable for the student to acquire the general principles of the science and such special facts as may be most useful to him in practice, as directly as possible; to study chemistry from the medical rather than from the chemical stand-point.

In preparing these experiments the author has followed the popular plan of Beilstein, and has kept constantly in mind the chemical necessities of the average medical student.

The experiments cover work with the principal metals and acids, using Beilstein's examples. In addition, the more important alkaloids and some organic compounds of medical interest are considered. In physiological chemistry, the work deals with the proteids and carbo-hydrates, the digestive processes, blood, bile, milk, and urine. The acid tests recently introduced for the clinical examination of stomach contents are also given. It may be used in conjunction with any systematic treatise on the subject.

Extra blank leaves are inserted at the end for students' notes.

CLARK. SKETCHES OF HIS CAMPAIGN IN THE ILLINOIS IN 1778-9.

By Col. GEORGE ROGERS CLARK. With an Introduction by Hon. *Henry Pirlie*, of Louisville, Ky., and an Appendix containing the Public and Private Instructions to Col. Clark, and Maj. Bowman's Journal of the Taking of Post St. Vincent's. Portrait of General Clark. 8vo., \$2.00.
Large paper, 4 00

The importance of the expedition of Colonel Clark is known to every well-informed person as that to which we are mainly indebted for our possession, to-day, of the immense range of country west of the Alleghanies; and this personal narrative of that expedition, from the pen of its commander, it will be seen, is necessarily a paper of great historic interest, both as a portion of the local history of the West, and as an element in the history of our relations with Great Britain, France, and Spain. The typography of the volume is excellent.—*Historical Magazine*.

A very original and striking revolutionary

character is portrayed by himself, in "Col. George Rogers Clark's Sketch of his Campaign in the Illinois in 1778-9." . . . Clark's military capacity was certainly of a high order, and it is seldom one reads of a commander possessing such boldness, resources and tact. He understood perfectly, for military purposes, the Indian nature, and how to exhibit at the right time courageous defiance and magnanimity. . . . The operations at Kaskaskia and Vincennes are described in a very graphic but truly modest manner—the march from the former post to take the latter being one of extraordinary hardship and enterprise.—*The Nation*.

CLAYPOLE. THE LAKE AGE IN OHIO; or, Some Episodes during the Retreat of the North American Ice-Sheet. By Prof. E. W. CLAYPOLE. With 4 maps. 8vo. Paper. 75

The former existence of a great ice-sheet over the midland region of North America has now passed beyond the domain of speculation, and is one of the admitted facts in American Geology. The above named paper is an attempt to trace the series of changes which must have followed the re-

treating ice. . . . The work aims merely at being a summary of the present state of our knowledge of this interesting geological study. . . . It is one of those resources from which the amateur and teaching geologist can draw important information.—*American Geologist*

COFFIN. THE REMINISCENCES OF LEVI COFFIN, the Reputed President of the Underground Railroad. Being a brief History of the Labors of a Lifetime in behalf of the Slave, with Stories of numerous Fugitives who gained their Freedom through his Instrumentality, and many other Incidents. Steel Portraits of Levi and Catherine Coffin. 12mo. Cloth. 2 00

I write to thank you for the very interesting volume just received, entitled "Reminiscences of Levi Coffin." I examined the book carefully, soon after it was first published. It contains an authentic account of the operations of the Underground Railroad, one of the most formidable movements against slavery, and which did much to bring on the conflict which resulted in emancipation. The part taken in that movement by Levi Coffin and his wife, Catherine, was so conspicuous and efficient that the history of their work and adventures will always have a great and peculiar interest. That history is given in the most entertaining way in this volume.—*R. B. Hayes*.

It gives me great satisfaction to learn that a new edition of that most remarkable book, "Reminiscences of Levi Coffin," is about to be issued. It is one of the world's autobiographies, the record of heroic adventures and noble self-sacrifice in the cause of hu-

manity. A braver man than Levi Coffin the world has never seen. He was the Chevalier Bayard of Peace and Freedom, and his true story has the fascination of a romance. As a moral educator, I wish it could be placed in the hands of every young man and woman in the land.—*John G. Whittier*.

Now that slavery in the United States has, happily, become a thing of the past, a desire has been expressed, in many quarters, that the very interesting adventures of many of the "passengers" by Levi Coffin's "line" should not be suffered to pass into oblivion, but should be handed down for the instruction of a younger generation whilst the events are still fresh in the memory of the chief agent in the good work. . . . It is matter for thankfulness and deep satisfaction that our Friend Levi Coffin has been enabled to complete the preparation of so valuable a contribution to the history of American slave emancipation.—*London Friend*.

COLERICK. ADVENTURES OF PIONEER CHILDREN; or, Life in the Wilderness. A Portrayal of the part performed by the Children of the Early Pioneers in establishing homes in the Wilderness. Acts of Unequaled Bravery and Patriotism. Adventures with Wild Beasts and Savage Indians, etc. By E. FENWICK COLERICK. Illustrated. 12mo. 1 00

A book of exciting interest. The children of the early settlers in the Ohio and Kentucky wilderness of a hundred years ago faced, with their parents, the danger of savages and wild beasts. The boys and girls of that time were necessarily a part of the pioneer army, realizing as soon as they could think that their lives were constantly in peril. As a result certain qualities were developed in them that seem surprising to their descendants of this day. As they shared the risk and bore a hand in the common defense, they well deserve the attention of the historian, and the idea of writing up their daring exploits and devoted bravery is to be warmly commended. Mr. Colerick has written an absorbing book, one that will be read with wonder as well as eagerness.—*Cincinnati Commercial Gazette*.

Mr. Colerick has remembered that the children of the early time must have had some interesting experiences. From general and local histories he gathers accounts

of acts of heroism, adventures with wild beasts, and many other interesting incidents in which the pioneer youth had part. They are entertainingly presented, and in reading the sketches boys and girls of today may be led to a better appreciation of the comforts which surround them, now that homes have been established where a few years ago was a great wilderness.—*Indianapolis News*.

The "Adventures of Pioneer Children" gives a series of episodes in the early history of the West, in which boys and girls both figure, and narrates many of the privations and sufferings, sports and enjoyments of those who laid the foundations of empire in the States of Ohio, Kentucky, Indiana, and in Western Pennsylvania and Virginia. This volume will be specially interesting to every young reader whose parents or grand parents belonged to pioneer families.—*Western Christian Advocate*.

COLLIER. SORGHUM: ITS CULTURE AND MANUFACTURE, ECONOMICALLY CONSIDERED AS A SOURCE OF SUGAR, SYRUP, AND FODDER. By PETER COLLIER, Ph.D., late Chemist of the United States Department of Agriculture, Washington, D. C. Illustrated. 8vo. Cloth. 3 00

Prof. Collier has presented, in a systematic manner, all the most important facts relating to the economical production of the above recited results from sorghum. In his 582 large and liberal pages, with numerous illustrations, he has exhausted all needed material to show that the Northern cane will become an important factor in the sugar supply of this country, which our readers know now pays foreign nations over \$100,000,000 for a want we are unable to fill. He treats sorghum as botanically related to the tropical cane, and resembling it in capacity for production of saccharine staple. He says he "has not been spared the infliction of ridicule; but, as an

offset, he has already had the satisfaction of witnessing the actual production of good sugar from sorghum, on a large scale, and at moderate cost;" and he trusts that his work may aid in establishing, in this country, the sorghum-sugar industry. We anticipate a rapid sale of the "Sorghum Book," especially among those whose patience has not become exhausted by the long-deferred consummation of results so confidently predicted. Nearly all that can be said or desired to be known on the sugar topic is spread before the reader, while the value of sorghum, as a foliage and fodder plant, is conclusively proven.—*Cincinnati Commercial Gazette*.

CRAIG. HEBREW WORD MANUAL, etymologically arranged. By

Prof. JAMES A. CRAIG, Ph.D., Adjunct Professor of Biblical Exegesis in Lane Theological Seminary. 12mo. Cloth. Net. 1 00

This is a brief work, comprising all the roots occurring not less than twenty times, with their most important derivations in etymological arrangement, together with a list of the particles (prepositions, adverbs, conjunctions, interjections), so arranged and grouped together as to render easy their mastery, and an index of roots. On each page are two columns. The right-hand column gives the verbal form with its more common significations, and the left-hand column contains the derivatives. Where it was thought the more original signification of the roots would aid the student in connecting the meaning of the derivative with the verbal form, such original signification is given and indicated by a smaller type.

The importance to the student of entering at once, in a scientific way, upon the acquisition of a vocabulary has been emphasized, and it is believed that this contribution to Hebrew text-books will greatly simplify the labor and add to the pleasure of the student. The student begins at once to do the most important work, and to do it scientifically.

The roots are arranged in the order of the frequency of their occurrence. Those occurring 2,000 times are given first, then follow those occurring 900, 800, 700, etc., times, down to those found 20 to 25 times. Derivatives occurring ten times and less often are numbered.

That which is of prime advantage to every student to know in acquiring a vocabulary is given, and all useless material, as well as what is comparatively of little importance, carefully excluded, the aim of the book being to be as comprehensive as the need of the student requires, and yet as concise as consistent with a reading vocabulary and scientific accuracy.

CRAIG. THE OLDEN TIME. A Monthly Publication, Devoted to the Preservation of Documents and other Authentic Information in relation to the early Explorations and Settlement and Improvement of the Country around the Head of the Ohio. Edited by *Neville B. Craig, Esq.* (Originally published at Pittsburgh, in 1846-47.) 2 vols. 8vo. Cloth, 6 00

The index alone can convey an idea of the richness of this collection. Among many others, the following may be enumerated: Washington's journals of 1753, 1754, and 1770; Frederick Post's Journal, from Philadelphia to the Ohio, 1758; George Croghan's Journal, from Fort Pitt to Vincennes and Detroit, 1765; General Richard Butler's Journal, to the Falls of the Ohio, 1785; Arthur Lee's Journal, to the Northwestern Indians, 1785; a large number of valuable articles relating to the Indians, including details of many conferences and treaties; numerous articles concerning Braddock's Defeat, Lord Dunmore's War, the early settlement of Western Pennsylvania and the Northwestern Territory, etc. Two early books are reprinted entire in its pages—Smith's "Account of General Bouquet's Expedition against the Ohio Indians in 1764," and "A Memorial, containing a summary view of facts, with their authorities, in answer to the observations sent by the English Ministry to the Courts of Europe. Translated from the French." Though there were two editions of this latter work published, both in 1757—one in Philadelphia and one in New York—it is one of the rarest of American books, and is very valuable as giving the French view of the situation in the West at that time. Besides the above, the publication embraces numerous articles, giving facts of the most interesting character, from the private journals and personal reminiscences of many of those who acted prominent parts in early days, which will be of great value to the future historian of this region.

A full and accurate index has been prepared for this edition, which greatly enhances its value. The edition is a limited one.

CURRIE. PRINCIPLES AND PRACTICE OF COMMON SCHOOL EDUCATION.

By *JAMES CURRIE, A. M.*, Principal of the Church of Scotland Training College, Edinburgh, and author of many valuable educational books. 12mo. Cloth. 1 00

This work consists of three parts: I. A Manual of Principles, illustrating the Objects and Laws of Education in their connection with the Doctrines of Mental Science. II. A Manual of School Management, treating of Organization, Discipline, and the Art of Teaching. III. A Manual of Method, showing how the Art of Teaching is applied to all the branches which form part of Common School Education.

Space would fail us to give any thing like an adequate idea of the wide scope and comprehensive sweep of this work. While it deserves to find a place in every school or college library, it is in itself a library of almost every thing that can be implied in the term School Education. The author's reputation in the educational world will secure his book a warm welcome among all those who have at heart the true theory and practice of education.—*The Teacher, Philadelphia.*

It is an excellent work and should be found in the hands of all our teachers. A thorough study of the treatise by all our instructors would increase the value of our schools twenty-five per cent in a short time.—*The School Journal, New York.*

This may seem a large book for the subjects treated, but the reader will conclude, after a search through its pages, that there

is not a page or section that he would want left out. The views are comprehensive, the arrangements orderly, and the analysis clear and distinctive. The views of the author are positive, but well matured, and are expressed in simple and terse language that keeps the discussion luminous throughout. The imprint of the patient and painstaking student, the adept in practical experience, and the able and self-conscious master of the subject, stands out in every sentence. Every educator is profoundly interested in the subject-matter of every page of the book, and is but little fitted for the teacher's art unless he has read and studied just such authors. However much he may have done this before, he will find a rich mine of new thought and suggestion here. It is a rare teacher's manual of itself.—*Educational Courant, Louisville, Ky.*

CUTLER. LIFE, JOURNAL, AND CORRESPONDENCE OF REV. MANASSEH CUTLER, LL.D. By his grandchildren, WILLIAM P. CUTLER and JULIA P. CUTLER. Portrait and two plates. 2 vols. 8vo. 5 00

For diversity of good gifts, for their efficient use, and for the variety of modes of valuable service to his country and mankind, I doubt whether Manasseh Cutler has his equal in American history.—*Rev. A. P. Peabody, D.D.*

The first merit of these volumes is, that they furnish distinct outlines for a true chapter of the History of the United States as yet unwritten in any adequate form, and that after a long and unmerited obscurity they bring visibly into the front, where he properly belongs, a first-class character and national benefactor.

Their second merit, in a historical point of view, is in the contribution which the diary and correspondence make to our knowledge of events, persons, phases of public opinion, social characteristics, state of science and the arts, and the topographical condition of the New England and Middle States—particularly the former—during the Doctor's active life, including therein the important period of the Revolution.

Third, in order of enumeration, is the biographical merit of the volumes, though their charm and readableness in this particular will cause many to reckon this first. Incomplete as the biographical facts are, through loss of data by fire and otherwise, they suffice to portray clearly a most interesting and able man, one whose traits as thus disclosed are a continual reminder of Dr. Franklin. One of the most instructive and valuable entries in the diary is that giving an account of Dr. Cutler's visit to the sage of Philadelphia, who was then living in the retirement of his old age.—*New England Historical and Genealogical Register.*

These two handsomely printed volumes furnish important data concerning the true history of the early settlement of the Ohio Valley and the North-west. Dr. Cutler kept a daily record of his personal affairs, beginning in the year 1765, and ending the year of his death, 1823, extracts from which constitute in this work one of the most interesting and useful autobiographies ever given to the public. Dr. Cutler was a man of varied and scholarly accomplishments, with a keen sense of humor, and he was a racy and charming writer. In his travels from state to state, in his social relations, as a member of Congress, and in all his experiences as a pioneer in the wilderness, he relates what he did, saw, and thought, in clear-cut, terse, and straightforward language; and we are thereby introduced to nearly all the prominent people in the country during the period of his active career. To the student of American history these volumes are invaluable. No work has ever appeared so prolific in information to those who would carefully study the beginnings of Ohio and her near western neighbors. Aside from this the journals and descriptions are delightfully readable, and as a source of simple entertainment the general public will find the work more attractive than a romance. It has been very ably edited, and is presented by its publishers in clear handsome type and well bound. It is a work no library should miss, and every household in the country would be the better for giving it a warm welcome.—*Magazine of American History.*

CUTLER. THE LIFE AND TIMES OF EPHRAIM CUTLER. Prepared from his Journals and Correspondence. By his daughter, JULIA P. CUTLER. With sketches of his brother Major Jervis Cutler and his son William P. Cutler. Portraits. 8vo. Net. 2 50

Ephraim Cutler was the eldest son of Manasseh Cutler, LL.D. (for his life see above), and during his entire manhood was a very prominent figure in Ohio history. He was a judge of the Quarter Sessions and the Common Pleas in the Northwestern Territory, a member of the second Territorial Legislature and of the first Ohio Constitutional Convention. He introduced the clause in the constitution prohibiting slavery, and that relating to religion and education. As a member of the Legislature, 1819-1825, he took a leading part. The "Life" is largely autobiographical, and gives hitherto unpublished details of the political history of the early days of the Territory and State, and many entertaining sketches of prominent men.

Major Jervis Cutler, U. S. A., was the author of a "Topographical Description of the State of Ohio, Indiana Territory and Louisiana," published in 1812.

W. P. Cutler was for fifty years a prominent political figure in Southern Ohio. Copious extracts are given from his journals and correspondence. His diary while in Congress in 1862-3 is of especial interest. The accounts given of secret meetings held by the Union members of Congress, and of the measures discussed by them, will be a revelation to most readers.

DIETRICK. THE FAMILIES OF JOHN AND JAKE. (On the Education and Training of Boys.) By ELLEN B. DIETRICK. 12mo. Paper. 25

Comprehensive, concise and logical, are fitting terms to apply to this well-written pamphlet, in which the author goes to the root of the matter in her scheme for remedying and removing a great social evil, which has given rise to the problems of the age, namely: the amelioration of the condition of what Mr. Booth so aptly names the "submerged tenth," which is, unhappily, as omnipresent in America as in overcrowded England.

The typical "Johns and Jakes" are represented as in perpetual conflict, the former doing their utmost to redeem their fallen neighbors, and do away with the vice and crime attending them, by means of stringent laws, church and mission work, refuges, jails, and reformatories and charitable and benevolent schemes and organizations without number. It is all in vain. Finally it dawns upon the descendants of "John" that under the present system of regeneration, they are simply putting a premium on wretchedness. Reconstruction takes place. Remembering the old adage that "Just as the twig is bent the tree is inclined," they make a new beginning; kindergartens and industrial schools are established to train and equip the rising generation for the struggle of life; laws are passed to insure and protect the rights of the vast army of wage-workers, and to improve and elevate their condition and surroundings; the avenues of trade are opened, and the power of capital directed so as to secure to labor "Honest work for the day, honest hope for the morrow," and thus, in an arcadian vision of universal prosperity the scene closes.

The work should recommend itself to all who have the welfare of their fellow beings at heart, and there are few who will not indorse Mrs. Dietrick's sentiments in regard to this most important question.

The story is a splendid plea for "kindergartens," and illustrates, in a forcible manner, how much better it is to train the hands, hearts, and heads together, than to try any one separate. Every teacher and person wishing to acquaint themselves with the true kindergarten idea should read it.—*Kentucky School Journal.*

DOISY. REMINISCENCES OF ARMY LIFE UNDER NAPOLEON-BONAPARTE. By ADELBERT J. DOISY DE VILLARGENNES. 12mo. Cloth. 1 00

This is an exceedingly interesting volume. It is the personal recollections of army life under the great dictator. The author, at the time he was induced to write down these events, was 84 years old. His memory was dim as to current events, but those of his youth were vivid and clear. He was an enthusiastic admirer of Bonaparte. In 1868, upon the 100th anniversary of the birth of Napoleon, he was called to Detroit by his enthusiastic countrymen to assist in celebrating the event. The closing sentence

of his speech shows how Napoleon bound to himself his fellow soldiers. He said: "I never took any oath of allegiance but that of fidelity to Napoleon and his dynasty; that oath I have kept—I shall keep it. I never uttered but one political exclamation, and it, I hope, will exhale itself with my dying breath." While the facts here told may present nothing new in history that is valuable, they nevertheless have a point and piquancy and interest which will thoroughly interest the reader.—*Chicago Inter-Ocean.*

DRAKE. PIONEER LIFE IN KENTUCKY. A Series of Reminiscential Letters addressed to his Children. By DR. DANIEL DRAKE. Edited with Notes and a Biographical Sketch by his son, Hon. Charles D. Drake, of Missouri. 8vo. Cloth, \$3.00. Large paper, 6 00

Dr. Drake was a man who, while he lived, was a large part of all literary and scientific progress in the West, and who left behind him a repute for public usefulness and private worth which his own section may well cherish with pride, and which we may all gladly recognize. The letters of Dr. Drake are not merely personal reminiscences, but faithful pictures of local manners and customs. We can not advise any to turn to them for the realization of romantic ideas of the pioneers; but they are very interesting reading and very instructive; they form part of our own history, which daily grows more remarkable and precious; and we most heartily commend the volume, not only to collectors of such material, but to the average reader, as something very apt for his entertainment and then for his use. The biographical sketch by Mr. Charles D. Drake is satisfactory, and the preface is a singularly sensible piece of writing.—*Atlantic Monthly.*

We have found these reminiscences unusually instructive and entertaining. Dr. Drake's pen-pictures of the early times in Kentucky, the hardships, trials, joys, and associations of pioneer life among the Indians and forests are exquisitely drawn and truly colored. His memories of childhood; the journey from New Jersey across the Alleghenies, in road-wagons, to Old Red Stone Fort, where the family embarked in a flat-boat for Mayslick, Kentucky; the long and tedious experience of the river, with exposure to the savages all along the banks; the scanty stores of provision on which to begin the new life in the wilderness; the manner of clearing the ground, cultivating corn, manufacturing various articles of domestic utility, spinning, weaving, fulling; the huskings, sugar-camps, wild-grape hunting; the thousand scenes and chores of backwoods life, are indeed the most enjoyable of pages for a winter evening by the fireside.—*Methodist Recorder.*

DU BREUIL. VINEYARD CULTURE IMPROVED AND CHEAPENED.

By A. DU BREUIL, Professor of Viticulture and Arboriculture in the Royal School of Arts and Trades, in Paris. Translated by E. and C. Parker. With Notes and Adaptations to American Culture, by John A. Warder, author of "American Pomology." With 144 illustrations. 12mo. Cloth. 2 00

Every intelligent vine-grower must be profited by the perusal of such a book. Dr. Warder's annotations are often of considerable length, and appear to be exactly what such a work requires to suit it to the wants of an American reader.—*Cultivator and Country Gentleman.*

The book under notice is decidedly the best treatise on the subject that has yet been given to the public in an English dress. We heartily commend the work to vine-growers especially, and to agriculturists generally.—*Maryland Farmer.*

EDWARDS. COALS AND COKES IN WEST VIRGINIA. A handbook on the Coals and Cokes of the Great Kanawha, New River, Flat Top, and adjacent Coal Districts in West Virginia. By WILLIAM SEYMOUR EDWARDS. 8vo. Paper. Net. 50

This pamphlet is, by necessity, largely a compilation—a compilation of facts gathered together with considerable pains, either by my own personal examination and observation, or the investigation of others who have given especial attention to such matters. The intention and aim in bringing together the information here collected is to put in compact and handy form what precise knowledge we now have of the coal beds and their coals and the coal trade of that great section of country drained by the waters of the Great Kanawha River, and outlying regions contiguous to it, in West Virginia.—*Preface.*

EVANS-SMITH. BIBLICAL SCHOLARSHIP AND INSPIRATION. Two papers by Professors LLEWELYN J. EVANS and HENRY P. SMITH of Lane Theological Seminary. 8vo. Paper. 50

These notable papers . . . constitute, be read and pondered by every intelligent layman and by every clergyman of our church.—*New York Evangelist.*

Two paper more diverse in style could not be put within the same covers. Prof. Evans fairly coruscates; Prof. Smith is level, more like a conversational talk, unpruned. They agree in their promulgation of the Higher Criticism views, denial of verbal inspiration, assertion of the errancy of the Bible. We regret the circulation of such errors, but it is time to have it decidedly settled whether professors under the shelter of our general assembly shall be authorized to teach them, and this pamphlet will help to clear the air.—*Philadelphia Presbyterian Journal.*

We have quoted at some length from these very remarkable papers because we can thus best indicate the nature of their contents. They must inevitably do great good. Their treatment of the whole question is masterly in every respect, their logic apparently irresistible, and the thoroughly devout and christian spirit which animates every page is inspiring and elevating. We can wish nothing better for the cause of truth and of Christianity than that these papers might

FAMILY EXPENSE BOOK. A printed Account Book, with appropriate columns and printed headings for keeping a complete record of Family Expenses for each day, week, and month of the year, with an itemized statement of expenditures for the year. Also, a servant's account, showing name, date of engagement, and rate of wages, with dates and amounts of cash payments. 12mo. Cloth. 50

A book that is absolutely indispensable in every family. Bound in cloth, at the merely nominal price of fifty cents, it is attainable to all. There is no such incentive to a wise economy as the habit of exact accounts, of knowing where money goes to. The thoughtless spirit that "when it is spent it is spent, and who cares how," is that spirit of waste and carelessness that leads its possessor into pecuniary trouble. Strict accounts are as necessary for the household as for the store or the manufactory.—*Cincinnati Commercial*.

An unpretending record of early life in Ross county, (which includes Chillicothe, the first capital of this state); the trials, hardships, and privations of the pioneers; their adventures as Indian-fighters and bear-killers, and the progress of the county to the present time.

FORCE. SOME EARLY NOTICES OF THE INDIANS OF OHIO. To what Race did the Mound Builders belong? By Hon. M. F. FORCE. 8vo. Paper. 50

The first of these papers groups together in chronological order the various notices of the Western tribes of Indians, from the discovery by Champlain, in 1609, of the Quatoghies, on the eastern shore of Lake Huron. . . . In the second paper the author considers the Mound Builders to have been driven from their fortresses and their territory, and forced into the tract bordering on the Gulf of Mexico, where, mingled with the conquering tribes, they lost some of their industries, but preserved some of their traits. He concludes that they were of the same race as tribes now living; that they were as civilized as the Pueblo Indians; that they flourished a thousand years ago, and earlier and later; and that in the tribes near the Gulf of Mexico were preserved some of their customs and some of their lineage till after the discovery of America by Columbus.—*Magazine of American History*.

FORMAN. NARRATIVE OF A JOURNEY DOWN THE OHIO AND MISSISSIPPI IN 1789-90. By Major SAMUEL S. FORMAN, of New Jersey. With a Memoir and Illustrative Notes by LYMAN C. DRAPER, LL.D., of Wisconsin. 12mo. Paper, 50c. Cloth, 75

General David Forman, of New Jersey, in 1789 entered into a negotiation with the Spanish Minister, Don Diego de Gardoque, for his brother, Ezekiel Forman, of Philadelphia, to emigrate with his family and about sixty colored people—men, women, and children—and settle in the Natchez country, then under Spanish authority. Major Samuel S. Forman accompanied this emigrating party, and in this narrative gives a minute account of their trip, the places they passed through and at which they stopped, prominent people they met, with many curious particulars.

The side lights the "narrative" throws upon manners and customs are many and true; and it deserves a permanent place among the better class of minor works relating to the West. It is a pleasure to meet with historical writings which one can honestly commend.—*Oscar W. Collett, President Missouri Historical Society.* The account is straightforward and of great value in its bearings upon the primitive settlements of the interior, as well as the life and movements of the people of that day.—*Public Opinion.*

The proofs referred to, and which are adduced in this book, consist of General Wilkinson's letters to Miro, the Intendant of Louisiana; of the confidential communications of the latter to the Court of Madrid; of the official dispatch of Don Diego Gardoqui to the same court; of John Brown's own letters and proved utterances; of the testimony and sworn evidence of members of the Danville Conventions of July and November, 1788; of Sebastian's own confession; of the testimony of members of the Legislative Committee which investigated Sebastian's corruptions in 1806; of the sworn evidence of Daniel Clark and Thomas Power; of the subterfuges, suppressions, concealments, and misstatements to which the conspirators resorted to hide their guilt, and of the tergiversations of all their adherents.

GRIMKE. CONSIDERATIONS UPON THE NATURE AND TENDENCY OF FREE INSTITUTIONS. By HON. FREDERICK GRIMKE. 8vo. Cloth. 2 50

It is written in a free, animated, and often very condensed and vigorous style. It was a bold attempt for any man to treat upon such a theme, so soon after the masterly effort of De Tocqueville, who seemed to have left little even for the gleaner where he had reaped. But Judge Grimke acted wisely in not being deterred by such a consideration, for his views strike us with the same feeling of freshness and originality as if the "Democracy in America" had not been written.

And while there is much in the extreme radicalism of many of the doctrines from which we entirely dissent, we can, nevertheless, do justice to the ability with which they are presented and enforced.—*Western Law Journal*.

It is a work full of thought, fair, tolerant, and based on much study; a series of sensible, deeply meditated essays, well worth reading.—*North American Review*.

HALL. ROMANCE OF WESTERN HISTORY; or, Sketches of History, Life, and Manners in the West. By JAMES HALL. 12mo. Cloth. 2 00

Mr. Hall's tales are characterized by a certain amenity and ease of narrative, a poetic appreciation of the beauties of nature, and the gentler moods of the affections; while the author's pleasant narrative has softened the rudeness without abating the interest of the wild border strife. The Indian subjects are handled with peculiar delicacy; the kindly sentiment of the author dwelling on

their virtues, while his imagination is unkindled by their spiritual legends. His style, pure in sentiment and expression, may be aptly compared with the calm, tranquil aspect of his own Ohio river, occasionally darkened by wild bordering woods, but oftener reflecting the beauty of the azure heavens.—*Duyckinck's American Literature.*

HARRISON. THREE HUNDRED TESTIMONIES IN FAVOR OF RELIGION AND THE BIBLE, by Distinguished Men and Women. By Rev. T. HARRISON, A.M., D.D. 2 00

I have examined the volume of Rev. Dr. Harrison, containing three hundred testimonies in favor of religion and the Bible. The work is really rich and invaluable. It is a book about the Book of books; it deserves a place in every library. *Bishop Vincent, President of the Chautauqua Circle.*

One of the most valuable religious books recently published is that entitled "Three Hundred Testimonies in Favor of Religion and the Bible," by distinguished men and women. Among the witnesses are the most eminent men of the world in all walks of life—ministers, statesmen, philosophers, scientists, soldiers, etc. To the preparation of this volume the author, Rev. Thomas Harrison, A.M., D.D., devoted many years. The work has been well and satisfactorily done. The sneers of infidels which often impress young people and adults of unstable minds, can be quickly and effectually silenced by the voices of men whom the world has delighted to honor for their intellectual ability and purity of character. Such a book should be in every house, and the attention of children frequently called to its treasures. The author is a thorough scholar and an able writer.—*Western Christian Advocate.*

To teachers, and especially to preachers, it is of the greatest value, since it contains, upon a most valuable point of inquiry, what it would require great libraries to furnish. It gives a beautiful review of the ideas and sentiments of the most illustrious and greatest minds of earth upon the loftiest subject within the range of the study of man—God's revelation of himself to the human mind and soul. The book ought to have an extensive sale.—*Religious Telescope.*

The book is a valuable treasury of quotations and opinions of great men about a most important matter, and should be in every preacher's library, and even in every family. We can heartily commend it.—*Christian Standard.*

The object of the work is to refute the erroneous statement, made so frequently by illiterate and malicious infidels, that men of education and intelligence can not believe in religion and the Bible. The fact is, the great majority of them have not only believed in religion, but have spoken in the highest praise of its excellence, and have labored in a variety of ways to promulgate its principles and carry out its requirements.—*Herald and Presbyter.*

HART. ANGLO-SAXON LITERATURE. A Syllabus of Anglo-Saxon Literature. By Prof. J. M. HART, of the Cincinnati University.

HASSAUREK. THE SECRET OF THE ANDES. A Romance. By Hon. FREDERIC HASSAUREK, author of "Four Years among the Spanish Americans." 12mo. Cloth. 1 50

THE SAME. In German. 8vo. Paper, 50c. Cloth, 1 00

The author has blended the elements of history, of tradition, and of imagination, in his powerful narrative, with admirable skill, showing an equally consummate command of the resources of knowledge and the gift of invention.—*New York Tribune*.

In a brief notice it is impossible to touch upon, much less to do justice to, the many points of beauty, power, and pathos with which the book abounds. It can not but

give pleasure whenever it is read, and must cause astonishment that one absorbed in the common-place, every-day, business-like duties of the daily editor, can still retain so much that is poetic, so much that is beautiful, and so much that is imaginative, in spite of cares that ordinarily put fancy to flight and make sentiment ridiculous.—*Cincinnati Commercial*.

HASSAUREK. SPANISH AMERICANS. Four Years among Spanish Americans. By Hon. FRED. HASSAUREK, late United States Minister to the Republic of Ecuador. Third edition. 12mo. Cloth. 1 50

There is scarcely any point as to which the average or the cultivated reader might desire to be informed, that the author has omitted in these graphic pages; the scenery, the cities and towns, the streets, the people, their domestic habits, their religion and politics, their divisions by caste and race, the natural products of the soil, the peculiar botany, the height of mountains, the statistics of earthquakes and eruptions, the na-

tive legends, the history of the conquest, the history of independence, glimpses of the present, guesses at the future state of the republic, etc. All these topics are managed without confusion and without dryness. The author is not only cognizant of his subject, but has it well in hand, knows especially what to select and what to reject, and withal is a capable observer and a trustworthy narrator.—*The Nation*.

HATCH. WAR OF 1812 IN THE NORTHWEST. A Chapter of the History of the War of 1812 in the Northwest. Embracing the Surrender of the Northwestern Army and Fort, at Detroit, August 16, 1813; with a Description and Biographical Sketch of the celebrated Indian Chief, Tecumseh. By Colonel WILLIAM STANLEY HATCH, Acting Assistant Quartermaster-General of that Army. 18mo. Sheep. 1 25

A new chapter of an old history. An old man's story, told while fighting his battles over again, concerning the operations of the Northwestern army. As the author was acting assistant quartermaster-general of the army, and in close communication with the various officers in command, his narrative possesses more than ordinary interest. . . . Nearly one-half of this volume is occupied with an elaborate memoir of Tecumseh, evidently prepared with unusual

advantages for securing accuracy of information, and with great care; and this is not, in our estimation, the least important portion of the volume.—*Historical Magazine*.

This unpretending little volume is quite an interesting addition to the history of the events referred to. It deals mainly with the operations of General Hull, and his surrender, and gives additional facts in regard to the character and death of Tecumseh.—*N. E. Hist. and Gen. Register*.

HAYES. THE LIFE, PUBLIC SERVICES, AND SELECT SPEECHES OF RUTHERFORD B. HAYES. By J. Q. HOWARD. Portrait. 12mo. Paper, 75c. Cloth, 1 25

Mr. J. Q. Howard's compact little volume is prepared with a good taste and moderation unusual in campaign documents, and it gives abundant materials for forming a fair estimate of the man for whom, probably, a little over half of a nation of forty millions will vote for its chief officer next November.—*New York Tribune*.

The volume is published especially with reference to the political campaign, but is, nevertheless, a correct biography, written in a spirit of entire fairness, and its selection from Governor Hayes' speeches are very judiciously chosen.—*New York Post*.

HENSHALL. BOOK OF THE BLACK BASS. Comprising its Complete Scientific and Life History, together with a Practical Treatise on Angling and Fly-Fishing, with a Full Account of Tools, Implements, and Tackle. By Dr. JAMES A. HENSHALL. Illustrated. 12mo. Cloth. 3 00

Dr. J. A. Henshall's "Book of the Black Bass" will, doubtless, meet the highest expectation of those who have so long and anxiously awaited its appearance. It is a work evidently written *con amore*, by one who has made black bass a special study for many years, and the ripe fruits of his research are displayed in the volume just issued. It will take rank as the undisputed authority on the subject of which it treats, and fills a niche too long vacant in the literature of field and flood. As a practical treatise on black bass, and the mode of capture, style of tackle, and all that pertains to the subject, the book may be safely recommended to the angling fraternity of America.—*Turf, Field and Farm*.

Dr. Henshall has given the angler a book which, as the oystermen say, is full "measure and solid meat."

The angling portion of the book is, without doubt, the best thing ever written upon these fishes. . . . It is clear, and covers the whole ground of the different modes of fishing, and is accompanied by cuts of the manner of holding the rod, castings, and diagrams of the mode of throwing the fly that it seems to us as if the merest tyro could soon become an expert by carefully reading this book and following its instructions. Not only is it a book for the beginner, but it is one that no angler can afford to do without. . . .

. . . . A great charm in the book is the author's freedom from conventionality, and from the echoing of sentiments which have become in sort orthodox opinions of angling writers. Taking it as a whole, we can not speak too highly of it.—*Forest and Stream*.

HENSHALL. MORE ABOUT THE BLACK BASS. Being a Supplement to the "Book of the Black Bass." Comprising additional matter on the subject of each chapter of the original work, arranged in the same order, containing the latest development in the Scientific and Life History of this best of American Game Fishes, the latest wrinkles in Angling and Fly-fishing, and the most recent improvements in Tools, Tackle, and Implements. By Dr. JAMES A. HENSHALL. With a new portrait, and numerous illustrations. 12mo. Cloth. 1 50

HENSHALL. CAMPING AND CRUISING IN FLORIDA. By DR. JAMES

A. HENSHALL, Author of "The Book of the Black Bass." Profusely illustrated. 12mo. 1 50

It contains Graphic Sketches of Camping, Sailing, Fishing, and Hunting in the Wonderland of Southern Florida, embodying Faithful Descriptions of its Natural Features, Scenery, and Climate; Interesting and Amusing Experiences with its Settlers, "Crackers," and Indians; Pleasing and Instructive Accounts of its Animals, Birds, Fishes, and Reptiles, and Reliable Information regarding its Soil and Products; being a full account of the Perils and Pleasures, Joys and Tribulations of a Life in the Wilds and on the Waters of Florida, as described by a Naturalist, Yachtman, Sportsman, and Physician.

For summer reading it would be difficult to find a more attractive book than Dr. Henshall's latest work, "Camping and Cruising in Florida." It is refreshing and breezy as the zephyrs from the sea which temper the heat of August. Without being stilted or pedantic the book gives considerable new information concerning the land of flowers and the fishing of that region in a style to attract the general reader, while to the true Waltonian it unfolds a wealth of pleasure.—*Turf, Field, and Farm.*

The incidents and scenes described, while strictly authentic, are woven into artistic pictures by toning down or adding a bit of color here and there. The writer has a keen sense of the humorous and gets the best and most possible out of the quaint surroundings. Many of the details, which are entered into with great care, are especially valuable to those seeking a new home in the South.—*Farm, Field, and Fireside.*

This work furnishes us with an entertaining and amusing account of two winters spent in Florida. The good doctor seems to have had amongst his patients a number of young men whose graves "were being dug slowly but surely by the frying-pan." Knowing that plain diet, pure air, bright sunshine, and varied exercise would work wonders, he induced four of them to accompany him on what proved to be a thoroughly rough but most enjoyable trip. How they sailed down the rivers and lakes and the open sea; how they fished and hunted, and what varied and amusing adventures they met with in their encounters with alligators, rattlesnakes, and panthers; what monstrous fishes they caught, and what hairbreadth escapes they had, would take too much of our space to describe. We must content ourselves with saying that the book is a very readable one from beginning to end.—*London Fishing Gazette.*

HANOVER. A PRACTICAL TREATISE ON THE LAW OF HORSES.

Embracing the Law of Bargain, Sale, and Warranty of Horses and other Live Stock; the Rule as to Unsoundness and Vice, and the Responsibility of the Proprietors of Livery, Auction, and Sale Stables, Innkeepers, Veterinary Surgeons, and Farriers, Carriers, etc. Second edition, revised and enlarged. By M. D. HANOVER. 8vo. Law sheep. 4 00

In this work, the author has chiefly sought to investigate the principles which constitute the law of warranty in the sale of horses, and to present them in a clear and concise form.

Contracts, frauds, carriers, negligence, and other branches of the law have also been treated of, so far as they relate to horses and other live stock. The rule as to unsoundness and vice in horses, and the responsibility of innkeepers, livery-stable keepers, and others having the care of horses, have been carefully presented.

The aim of the author has been to afford assistance to the lawyer, and at the same time to enable the unprofessional reader to gain a general acquaintance with the law on the subject. He has also given full notes of the decisions of the American and English courts.

Such a work as this, in which the law relating to live stock is carefully collated and arranged, and presented in a popular form which non-professional readers could un-

derstand, has long been needed; and we believe this work will be generally sought after by all who deal in this description of property.—*National Live Stock Journal.*

HOUGH. ELEMENTS OF FORESTRY. Designed to Afford Information concerning Planting and Care of Forest Trees for Ornament or Profit; and giving Suggestions upon the Creation and Care of Woodlands, with the View of Securing the Greatest Benefits for the Longest Time. Particularly adapted to the Wants and Conditions of the United States. By FRANKLIN B. HOUGH, Ph.D., Chief of Forestry Division, Department of Agriculture, Washington, D. C. With numerous illustrations. 12mo. Cloth. 1 50

The book is abundantly illustrated, is admirably adapted as an elementary guide to young foresters and all students of arboriculture, and deserves hearty commendation.—*London Journal of Forestry*.

Taken as a whole the work is a simple and carefully written treatise on a subject admitted to be of the utmost importance to the whole people of the Union, and contains more substantial facts comprised within its comprehensive range than any other work of its dimensions yet given to the public.—*Cultivator and Country Gentleman*.

The volume under notice, which, by the way, is quite fully illustrated, is the most complete work upon the subject that has yet

appeared in this country. Its author has been for several years engaged in investigating the subject of forestry in the Department of Agriculture, and his reports have been highly commended at home and abroad. In this volume he has confined himself very strictly to the practical side of the subject, and has left untouched no details as to soils, climates, methods of propagation, ornamental planting, hedges, cutting and preserving timber, insect ravages, forest fires, etc. Theoretical discussions are entirely avoided, and the whole tone and scope of the volume are in the highest degree plain, practical and intelligent.—*New England Farmer*.

wife of the nation. No housekeeper in the land should be without this book.—*Kansas City Times*.

The arrangement, the index, the classification, the terse but lucid brevity of the recipes, the insertion of a number of blank leaves—every thing about this book, shows that it was gotten up with great care, by ladies of rare intelligence, cultivation, and experience.—*Frankfort (Ky.) Yeoman*.

Though a large part of the volume is of course given up to the origin of the various institutions, yet there are many descriptions which will be read with pleasure. The chapter on the "Indian occupancy and early military expeditions" will repay perusal.—*Magazine of American History.*

JACKSON. THE BLACK ARTS IN MEDICINE. With an Anniversary Address. By the late JOHN D. JACKSON, M.D., of Kentucky. Edited by L. S. McMurtry, M. D. 12mo. Cloth. 1 00

This quaint title suggested to us, before perusal, a history of the astrology and alchemy of the early fathers in medicine, and the impress of such arts on the practice of to-day. But in this estimate we were quite mistaken. By an ingenious perversion of the original meaning of the term, the doctor has made, under the form of scathing satire, a denunciation of the disreputable arts and devices resorted to by the unscrupulous with the purpose of securing patronage.

Unhappily there is too much truth conveyed by this satire, which, *veluti in speculum*, reflects back the habits of very many of our otherwise respectable men. If the public could have as keen an appreciation of the contemptible littleness of these prac-

tices as evidenced by the author of this work, the *black arts* would soon become the *lost arts* of medicine.—*New York Medical Journal*.

This is one of the most amusing, most entertaining, most sarcastic, and most useful monographs that have been received for many months. . . . If one will study this work, and, avoiding all the arts so well satirized, pursue the course tacitly or constructively indicated, he will become a wiser, purer, and better man, a more efficient, trustworthy, and accomplished physician. This is exalted commendation for so small a publication, but the praise bestowed is well and fully deserved.—*Richmond and Louisville Medical Journal*.

JASPER. THE BIRDS OF NORTH AMERICA. Drawn from Nature; engraved and described by THEODORE JASPER, A. M., M. D. Each part contains three beautifully colored Plates, and one tinted Scientific Plate, twelve by fifteen inches, and eight pages of letter-press, devoted to the Popular and Scientific History of North American Birds, including a popular Account of their Habits and Characteristics. 2 vols. Royal 4to. Half morocco. 50 00

THE SAME. Popular portion only, with the Colored Plates. 1 vol. Full morocco. 40 00

I am much pleased with your work, "The Birds of North America," especially with that part which treats of the osteological and anatomical characters of birds, for too little has been written upon this subject by other ornithologists. In the grouping of the birds, arrangement of light and shade, in the perspective and delineations of the form and feathers, Dr. Jasper has certainly surpassed all other artists, producing the best pictures of the species which I have ever

seen.—*Prof. C. F. Maynard, author of "The Birds of Florida."*

A work in every way worthy the subject, and one attainable by all lovers of birds. Having compared these with specimens in our own cabinets, we are prepared to vouch for their fidelity. Having made a special study of works of ornithology, we take pleasure in recommending this work, as, every thing considered, being by far the most satisfactory of any in the market.—*Prof. R. A. Oakes, Ornithologist of New York.*

KELLER. ELEMENTARY PERSPECTIVE. Explained and Applied
to Familiar Objects, for the Use of Schools and Beginners in the Art of
Drawing. With 17 full page illustrations. By M. J. KELLER, School of
Design, University of Cincinnati. 12mo. Cloth. 1 00

It is so lucid that beginners can readily understand it, and so far thorough that it contains every thing with which it is essential that the student of drawing should make himself acquainted. Nothing can make the study of perspective an easy one, but Keller's treatise simplifies it as much as is possible, aided by the excellent diagrams

with which the text is illustrated.—*Philadelphia Inquirer*.

It is commendable for its lucidity of explanation and definition, and the gradual method that conducts the scholar through linear perspective, parallel, angular, and oblique.—*Cincinnati Commercial*.

KELLEY. ALFRED KELLEY; HIS LIFE AND WORK By Hon.
JAMES L. BATES. Portrait. 8vo. 1 50

Mr. Kelley was born in Middlefield, Conn., in 1789; spent his youth in Lowville, N. Y.; and in 1810, having come of age, was on his way on horseback to the "Great West," there to make his home and his fortune. In 1814, Mr. Kelley had so far established himself in his new position as to be sent to the legislature, and he was then its youngest member, as when retiring therefrom, in 1857, he was its oldest member. There more than forty years, many of them years of active legislative service, both in the Senate and House of Representatives, were the arena for those public works which deservedly made Mr. Kelley the most conspicuous, as he was justly the most memorable, Ohio man of his time. The personal efforts and official life of Mr. Kelley are so intimately blended with the development of the resources of Ohio, with its commercial and financial prosperity, and with the establishment and maintenance of its credit, that this narrative necessarily includes much of these departments of the history of the state. Its pertinency to the times, its vital relations to Ohio history, its touches of reminiscence, and its exemplification of a stalwart, sturdy, steadfast American character of the highest and noblest type, will commend it to general attention.

KLIFFART. THE PRINCIPLES AND PRACTICE OF LAND DRAINAGE.
Embracing a brief History of Underdraining; a detailed Examination
of its Operations and Advantages; a Description of various Kinds of
Drains, with Practical Directions for their Construction; the Manufacture
of Drain Tile, etc. Illustrated with nearly 100 engravings. By JOHN H.
KLIFFART, author of the "Wheat Plant," Corresponding Secretary of the
Ohio State Board of Agriculture, etc. Second ed. 12mo. Cloth. 1 75

This is an excellent work upon the subject of drainage, written by a person conversant with the subject. It is written in a plain, candid manner, and can not fail to be of essential service to those who will read and practice its precepts. The subject is one of great importance to our farmers, and demands of them more attention than it has yet received.—*New England Farmer*.

We hail with pleasure the appearance of this work. The author—who, by the way,

is one of the most distinguished agriculturists of the West—has taken great pains to show the cost and comparative value of different kinds of drains—open, mole, tile, brush, etc.—and their effect on the different kinds of grain roots, etc. We advise the farmers of the West to procure the above work, and, in perusing its pages, they will gain what years of experience alone can give.—*Chicago Farmers' Advocate*.

LAW. COLONIAL HISTORY OF VINCENNES, INDIANA, under the French, British, and American Governments, from its first Settlement down to the Territorial Administration of General William Henry Harrison. By Hon. JOHN LAW. 12mo. Cloth. 1 50

This is an address delivered by Judge Law before the Vincennes Historical and Antiquarian Society, February 22, 1839; republished in 1858, with numerous additional notes and an appendix—two-thirds of the volume containing much valuable matter relating to General Clark; General Hamilton (British); Tecumseh; Public Lands; Territorial Acquisition; Le Balm's Expedition; Ancient Grant; the *Western Sun*, the first newspaper printed in Indiana Territory; the Catholic Church; and Early Militia.

LEE. CHROMATIC CHART AND MANUAL OF PARLIAMENTARY LAW.

By J. ROSS LEE. 24mo. Stiff paper, 25c. Leather, 50

Who would have thought, a few simple colors could express so many pages of rules and abstract facts? Here they are, separate and distinct, yet all together. The "Chart" answers all the questions that are likely to arise in any assembly. It presents them instantly, fully, and plainly. No turning of leaves, no following of lines, no reading of abbreviations, but simply requiring a look, that is all; for the "Chart" shows at a glance every thing needful to be known concerning each motion, and these needful things are presented to the eye, without the necessity of reading. It shows that the author has carefully mastered his subject.

The work is complete, yet occupies no more space than a common letter. It contains as much as the large, cumbersome books, but has none of their constant and useless repetitions. It has the merit of being terse, yet clear; brief, yet exhaustive.

Mr. Lee has produced a valuable work, for which public men, ministers, lawyers, and all who may be called upon to preside over deliberative assemblies, or mass meetings, will be very thankful.

It is a complete manual. It will carry the chairman gracefully over any emergency. It puts before the eye, in the most available form, the principles of parliamentary law. Being no larger than an ordinary letter, it can always be carried in the

pocket without the least inconvenience. But the "Chart" is the marvelous thing. Without reading, by the glance of the eye, and, in a second, the chairman can dispose of any question arising out of the combination of motions.

The work reflects great credit upon the ability and ingenuity of the author, and shows that he has a ready and complete mastery of the subject about which he has written.—*The American*.

LLOYD. THE CHEMISTRY OF MEDICINE. A Practical Text and

Reference Book, for the Use of Students, Physicians, and Pharmacists.

Embodying the Principles of Chemical Philosophy, and their Application to those Chemicals that are used in Medicine and in Pharmacy, including all those that are officinal in the Pharmacopœia of the United States.

With 50 original cuts. By Prof. J. W. LLOYD. 12mo. Cloth, \$2.75.

Leather, 3 25

The treatise almost exclusively relates to such chemical processes and products as are of interest to the physician or pharmacist. The author wastes but little time on theory, but gives clear descriptions of the processes by which chemicals are prepared; mentions the principal impurities or adulterations to which they are liable, and supplies tests for their detection. It will prove a valuable addition to the library, useful to all, and almost indispensable to the student in medicine or pharmacy.—*Druggists' Circular and Chemical Gazette*.

All the important elements are described,

but of the compounds, those which have been employed in medicine are treated of. The limits thus drawn by the author have enabled him to give, in the space at hand, outlines of the various processes, with many useful, practical hints, descriptions of the various compounds, and brief directions for determining their purity.—*American Journal of Pharmacy*.

The writer places the facts before the reader in as clear and concise a way as possible. In fact, it may be said to take the place of a private instructor in chemistry.—*The Pharmacist and Chemist, Chicago*.

LLOYD. ELIXIRS: THEIR HISTORY, FORMULÆ, AND METHOD OF PREPARATION, ETC. By Prof. J. U. LLOYD. 12mo. Cloth. 1 25

It was not an easy task for the author to collect and critically examine the numerous formulas for elixirs which are scattered through the journals and other publications during the past twenty-four years; but it has been accomplished, and the author's own experience with this class of preparations has been added, introducing improvements and practical useful suggestions.

The book gives full, and what is better, reliable information about the numerous elixirs more or less in use, and will retain a permanent value as a good work.—*American Journal of Pharmacy*.

Professor Lloyd has been the first to handle the subject in a systematic and magistral manner. After collating the various formulas, selecting the best and eliminating the useless, he now presents to the pharmacist a good and complete practical treatise on elixirs, as accurate and explicit in its directions as any Dispensatory. In fact, it would be no unworthy supplement to any of these publications.

We heartily recommend Professor Lloyd's treatise to all pharmacists desirous of preparing their own elixirs.—*The Druggists Circular and Chemical Gazette*.

LONGLEY. AMERICAN MANUAL OF PHONOGRAPHY. A Complete Guide to the Acquisition of Pitman's Phonetic Shorthand, with or without a Master. By ELIAS LONGLEY. A new and carefully revised edition. 12mo. In stiff paper binding, 65c. Cloth. 75

This "MANUAL" was first published in 1854, and has continued for nearly forty years one of the most popular shorthand books in the market. It has several times been thoroughly revised and kept abreast of all modern improvements, and has become a standard work. In this new edition it has again undergone a thorough revision.

A practical book by a practical man. Mr. Longley has been writing about and practicing phonography for forty-five years. His Manual is for beginners, and it is so clear and terse that we should think that a close student could become a phonographer without any other teaching than can be found in its pages. Phonography is progressive, and this edition of the Manual is a careful revision for 1882. The system is Isaac Pitman's, with the most helpful American improvements. The book leads the student through graded exercises, and avoids burdening his mind with a word or mark that is not strictly necessary. The principles and rules are always practical, and the abstract philosophy of the language is not gone into. The aspiring youth who so often writes to the editor inquiring about a good manual of phonography, should try Longley's. An examination of his Manual

satisfies us that it is all that could be desired. It combines cheapness with directness and brevity.—*Cincinnati Commercial*.

Your little book seems to me to be the very best for learners that has yet been issued. It is a clear, honest exposition of what phonography is and can do. The matter of the book is excellent, in its simplicity of arrangement, fullness of suggestion, methodical and practical presentation of the principles of the art, and in its helpfulness to the unpracticed student. The typographical execution is faultless, and reflects credit upon the author's knowledge "how to do it" in the printer's art.—*Daily Advertiser, London, Canada*.

The exercises are so clear that a persistent student could, we think, obtain a fair knowledge of the art, by close application and practice, without the aid of a teacher.—*The Practical Teacher*.

LONGLEY. COMPEND OF PHONOGRAPHY. Presenting a Table of all Alphabetic Combinations, Hooks, Circles, Loops, etc., at one view; also, Complete List of Word-signs and Contracted Word-forms, with Rules for Contracting Words. For the use of Writers of all styles of Phonography. By ELIAS LONGLEY. 12mo. 32 pages. Paper. 25

This is designed to be used as a pocket companion, for the ready reference of students, to ascertain the briefest and best forms for constantly recurring words, and as an aid in reading one's notes.

LONGLEY. AMERICAN PHONOGRAPHIC DICTIONARY, exhibiting the *Correct and Actual Shorthand Forms* for all the useful Words in the English Language, about 50,000 in number, and in addition, many Foreign Terms; also, for 2,000 Geographical Names, and as many Family, Personal, and noted Fictitious Names. By ELIAS LONGLEY. A new and thoroughly revised edition. 1892. 12mo. Cloth. 2 50

To the student in phonography this work of Mr. Longley will stand in a similar place to Webster's Unabridged in ordinary study. For its completeness and its entire adaptation to the needs of the phonographer, the book is worthy of the best words of commendation. The author is an experienced phonographer, . . . and has written some excellent works on the subject, which the profession has everywhere received with large favor. . . . If a thing is worth doing at all, it is worth doing well, and the student of phonography should select wisely his system before entering upon his study. The Isaac Pitman system, as taught by Mr. Longley, has long been regarded the most complete and satisfactory. The book is very handsomely printed.—*Chicago Inter-Ocean*.

Mr. Elias Longley has followed up his admirable series of American Phonographic works with a dictionary, which is a model

of convenience and accuracy. The confusing nomenclature of other systems gives place in this splendid work to a practical application of phonographic principles. The whole range of English words, including scientific and technical terms, appear in phonographic outline in its ample pages. . . . In design and execution this dictionary is all that could be desired by the practitioner or the student, solving for the one knotty problems, and directing the other to the best outline in the beginning of his practice. Mr. Longley's simple system seems destined to take the place of a number of technical systems, each of which varies from the other in essential particulars, leading to a confusion of outline and a babel of atrocious nomenclature. By the unprejudiced phonographer Mr. Longley's system will be hailed as a triumph of art.—*St. Paul Pioneer Press*.

LONGLEY. EVERY REPORTER'S OWN SHORTHAND DICTIONARY.

The same as the above, but printed on *writing paper*, leaving out the *Shorthand Forms*, and giving *blank lines* opposite each word for the purpose of enabling writers of *any system of Shorthand* to put upon record for convenient reference the peculiar word-form they employ. By ELIAS LONGLEY. 12mo. Cloth. 2 00

The pages are printed on good writing paper, and the work of writing in the shorthand signs for the words will be found an interesting pastime to the critical stenographer, as it will also be an instructive exercise to the learner.

In addition to the full forms of words, there is room in most of the blank lines for the expert stenographer to enter his most contracted forms, and to add to the number, as he finds it necessary to abbreviate special terms. He will thus, in a short time, compile for himself an invaluable book of reference, which he may also use in teaching his assistants and pupils to write in exact accordance with his own style.

LONGLEY. THE REPORTER'S GUIDE. Designed for Students in any Style of Phonography; in which are formulated, for the first time in any work of the kind, Rules for the Contraction of Words, Principles of Phrasing, and Methods of Abbreviation. Abundantly illustrated. By ELIAS LONGLEY. 12mo. Cloth. New edition, 1889. 2 00

The author's long experience of twenty-five years in practical reporting, both on newspaper work and as an official court reporter, and his critical study of all other works on the subject enable him to bring to the compilation of a new book on this most difficult art unequaled qualifications for accomplishing well his task. Having, within the last year, retired from the active pursuit of his reportorial profession, he is devoting the best efforts of his ripe years to the production of a volume that will not only be a credit to his reputation as a phonographer, but a most reliable and helpful guide to the thousands of young reporters whose accurate and skillful services will be required in the immediate future.

LONGLEY. THE PHONOGRAPHIC READER AND WRITER. Containing Reading Exercises, with translations on opposite pages, which form Writing Exercises. By ELIAS LONGLEY. 12mo. Limp cloth, 35c.; paper, 25

This little book should be in the pocket of every phonographic student until he can read and write every line without hesitation. It is the best substitute he can have for the constant presence of an attentive teacher. Though he may have studied the lessons thoroughly, he will find it slow work reading phonography until he has learned to recognize words by their form. To attain this skill, it is necessary to read a great deal; and to do this, one should not spend much time in analyzing the structure of words, or guessing at them as a whole. In the absence of a teacher to tell him, he needs an ever-present guide to save him from unnecessary waste of time. This prompt and faithful guide he will find in this little book, in the convenient key to every word, on the same or opposite page.

LONGLEY. WRITING EXERCISES. For gaining speed in Phonography, the exercises are printed contiguous to the lines on which they are to be written, and are interspersed with Word-signs, Phrases, and Sentences, beginning with the first lesson. By ELIAS LONGLEY. 64 pages. Paper. 25

LONGLEY. SHORTHAND AND TYPE-WRITER DICTATION EXERCISES. Counted and Timed for 50, 75, 100, 125, and 150 words per minute, for Advanced Learners in any System. By ELIAS LONGLEY. 12mo. Paper. 25

LONGLEY. CALIGRAPH LESSONS, for the use of Teachers and Learners, designed to develop Accurate and Reliable Operators. By Mrs. M. V. LONGLEY. 4to. Paper. 50

LONGLEY. TYPE-WRITER LESSONS, for the use of Teachers and Learners, adapted to Remington's Perfected Type-Writer. By Mrs. M. V. LONGLEY. 4to. Paper. 50

These two books of instruction in type-writing are substantially the same in plan, each being modified in accordance with the peculiarities of the respective instrument it is intended for. After an introductory explanation of the general theory of fingering (in which, be it said to the credit of the author, the use of *all* the fingers is advocated), a progressive series of exercises is given, commencing with simple words and thence passing to more difficult words and sentences. All of the exercises are clearly figured to indicate the fingering. The books are concluded with well arranged examples of business and legal forms and table work.

The books are so simple and well arranged that it seems impossible for the student who uses them to fail of acquiring expertness, without further instruction, provided he has the perseverance indispensable for all achievement.

LONGWORTH. ELECTRA. Translated from the Greek of Sophocles, by HON. NICHOLAS LONGWORTH. 12mo. Cloth. 1 50

LONGWORTH. SILAS JACKSON'S WRONGS. A Romance of Anderson Ferry. 16mo. Cloth. 1 00

MCBRIDE. PIONEER BIOGRAPHY. Sketches of the Lives of some of the Early Settlers of Butler County, Ohio. By the late JAMES MCBRIDE, of Hamilton. Vol. I. contains the lives of John Reily, Thomas Irwin, Joel Collins, Isaac Anderson, Samuel Dick, Joseph Hough and John Woods. With a portrait of the author. Vol. II. contains the lives of Robert McClellan, Isaac Paxton, Pierson Sayre, Henry Weaver, Jeremiah Butterfield, John Wingate, Daniel Doty, Matthew Hueston, Capt. John Cleves Symmes, John Sutherland, the Bigham Family, and Dr. Jacob Lewis. 2 vols. 8vo. Vol. I., \$3 50; Vol. II., \$3.00. Large paper. Vol. I., \$7.00; Vol. II., cloth, 6 00

Mr. McBride, the author of these biographies, who died in 1859, at the age of seventy years, and who was at that date one of the oldest and best known pioneers of Southern Ohio, was well qualified for this work by his tastes, early associations, and opportunities for collecting such materials. . . . They certainly are not only well written, but are of thrilling interest, and of the greatest value as memorials of the early settlers of Southern Ohio, and of their protracted and bitter contests with the Indians—contests in all respects, such as the fathers of New

England had but a very slight taste of.—*N. E. Hist. and Gen. Register.*

These biographies are by no means confined in their relations to Butler county, but add much to our knowledge of Revolutionary engagements, of the colonization of the Ohio valley, both north and south of the river, of the War of 1812, and even (following the descendants of the pioneers) of the late Rebellion. They may be read, therefore, with a great deal of pleasure and solid profit by the present generation, and will long be prized for their genealogies.—*The Nation.*

MCLAUGHLIN. CHINA PAINTING. A Practical Manual for the use of Amateurs, in the Decoration of Hard Porelain. By Miss M. LOUISE MCLAUGHLIN. Square 12mo. New edition. Cloth. 1 00

This is described on the title page as "A Practical Manual," and the promise thus put forth is carried out to the letter. The author's directions are as plain and direct as they could possibly be. She also enters into every detail of the art which she expounds, not only explaining how to use colors, but giving advice as to what colors and combinations of colors it is best to use relatively to the effects that it is intended to produce.—*Philadelphia Inquirer.*

It is thoroughly practical, being compiled

on the principle of what is worth doing at all is worth doing well. . . . A more painstaking and instructive work on the subject it is impossible to wish for. Every chapter is written in a most clear and lucid manner, in which the author's earnest purpose and experience is evinced throughout.—*British Mercantile Gazette.*

The little book is quite a typographical gem, both inside and out. The design of the cover is unique.—*Publisher's Weekly.*

MCLAUGHLIN. POTTERY DECORATION. Being a Practical Manual of Underglaze Painting, including Complete Details of the Author's Mode of Painting Enameled Faience. By Miss M. LOUISE MCLAUGHLIN. Square 12mo. Fancy boards. 1 00

"Pottery Decoration under the Glaze," bearing every evidence of great care in preparation, is a valuable little book coming from the pen of Miss McLaughlin. She is so well and widely known from her discovery, in 1877, of the method of painting the celebrated Haviland or Limoges faience, and the admirable work which her discovery has enabled her since then to produce, that any book by her should attract interest. When to this interest valuable information is added, it makes the work doubly desirable. Her preface is a modest one, and tells

us that the pages following are simply an account of results attained and facts acquired, every one of which can be vouched for as a record of personal experience.—*Art Interchange.*

Miss McLaughlin is thoroughly well informed upon this particular subject, and has, besides, a faculty for conveying instruction which many more voluminous writers have not. It would be impossible for the dullest student to become confused while studying her clear and concise directions.—*Boston Transcript.*

McLAUGHLIN. SUGGESTIONS TO CHINA PAINTERS. By M. LOUISE McLAUGHLIN, author of "China Painting" and "Pottery Decoration." Illustrated. Square 12mo. Fancy boards. 1 00

The above is a Practical Manual of China Painting, supplementary to the more elementary work on that subject by the same author, which is now in its twelfth thousand. Among other matters of interest to amateurs are chapters on Technique, Lessons to be derived from Japanese Art, Preparing Gold and Silver for Decoration and Porcelain, Use of Metallic Paints, Palettes for Flower Painting, Lettering, Painting Heads, Use of Relief Colors, Firing, etc.

It is illustrated with designs for plaques, vases, etc., drawn by the author, accompanied by full instructions as to colors to be used, method of treatment, etc., for each design.

Miss McLaughlin is the recognized authority on the art of which she treats, and the demand for her Art Manuals places them above all others of their class.

McLAUGHLIN. PAINTING IN OIL. A Practical Manual, for the use of Students. By M. LOUISE McLAUGHLIN. Sq. 12mo. Cloth. 1 00

The Inter-Ocean has on former occasions, in reviewing three or four volumes of art books by Miss McLaughlin, taken occasion to commend her for great conciseness and clearness in her directions, as well as for the large value of her facts. She belongs in the class of writers that make no attempt to teach before mastering a subject. Her little books on "Pottery Decoration" and "China Painting" are models of their kind. She goes straight to her subject, and the student is not confused with multitudinous theories, or with padding. The present volume is intended as a manual for students, and for such it has great value.—*Daily Inter-Ocean, Chicago.*

The thorough preparation that appears in Miss McLaughlin's writings, and her clear direct style, have given her a place of distinction among makers of art books. In the present volumes she gives a lucid statement of the scientific theories and facts relative to colors, treating the whole subject broadly as well as technically. She welcomes the new school of realistic and technical art that has sprung up almost within ten years. This book also is largely realistic, enlarging on the "material side of the subject the tools which the student should use and the best method of handling them."—*Cincinnati Commercial Gazette.*

MACLEAN. A MANUAL OF THE ANTIQUITY OF MAN. Illustrated. By J. P. MACLEAN. 12mo. Cloth. 1 00

This work contains in condensed form all that has been written on the antiquity of man. No work of the same number of pages contains so much information. It traces the evidences of man from the Miocene epoch down to the historical period, and classifies all the discoveries which have been made.

Whether we at once fall in with the author's views or not, this work has great merit. In fact, it is the most instructive book upon this subject—the natural history of the human race—we have ever read. No

one can fail to be interested in reading this book; and when you begin to read it, you will not quit till through; and when once read, you will want to read it again.—*The American Medical Journal.*

MACLEAN. MASTODON, MAMMOTH, AND MAN. Illustrated. By J. P. MACLEAN. 12mo. Cloth. 60

This work is of great value to the geologist and zoologist, as well as to the ordinary reader. All accessible facts concerning the mastodon and mammoth are given. The work is accompanied by a table enumerating the thirty-eight different varieties of the mastodon, with their scientific names explained, and the epochs and localities to which each belonged. Part third shows that man was contemporary with these animals from the earliest times.

The work gives a full account of all that is known concerning that people who built the stupendous monuments found in the valleys of the Ohio and Mississippi. He com-

mands an easy narrative style, makes no attempt at fine writing, is always unaffected, sincere, cordial, and never fails to win the sympathy and respect of the reader by his natural manner, his large knowledge of men and affairs, his high tone of character, and his purity and soundness of principles. —*New York Tribune.*

MARSHALL FAMILY (THE); or, a Chronological Chart of the Descendants of John Marshall and Elizabeth Markham, his Wife. Sketches of Individuals and Notices of Families connected with them. By W. M. PAXTON. Portrait. 8vo. Cloth. 2 50
The Chart separately. 50

'Nearly every date of birth, marriage, or death is recorded; and he has given sketches of many hundreds of the most eminent of this distinguished family. A copious index facilitates reference.

The chart is a work of beauty and art. About eleven hundred names are arranged as radii issuing from the central and original pair, in six concentric circles, or generations; and every individual is numbered and indexed so as to be conveniently found. The whole Marshall family, except the seventh generation of infants, appears at one view, and any member may trace his ancestry or his posterity with facility and unerring certainty. The chart is clear, simple, and easily understood.

This outline of the law of partnership has been sketched for the use of the business community. It aims to give nothing more than a general view of the principles on which it is based, and the rules for their application. It is not designed to supersede the necessity of professional advice. On the contrary, its chief value will consist in pointing out the occasions when such assistance is needed, and in enhancing the appreciation of it when rendered.

MAY. JOURNEY TO THE OHIO COUNTRY. Journal and Letters of Colonel JOHN MAY, of Boston, relative to Two Journeys to the Ohio Country, in 1788 and 1789, with a Biographical Sketch by Rev. *Richard Edes*, of Boston, Mass., and Illustrative Notes by *Wm. M. Darlington*, of Pittsburgh, Penn. 8vo. Cloth. 2 00

Colonel May was a native of Pomfret, in Connecticut. He became a resident of Boston at an early age. He often felt a desire to remove to lands which he owned "at Muskingum," in Ohio, but his wife's friends opposed the measure. According to his biographer, he was brusque in manner, hasty and choleric in temper, but so genial

and kindhearted that he was much beloved by those who knew him best. In the spring of 1788, Colonel May left home on a tour to the Western regions. The journal is an interesting record of that tour, with its stirring events and the daily life of those pioneers who settled Marietta, at the mouth of the Muskingum.—*Historical Record.*

METTENHEIMER. SAFETY BOOK-KEEPING. Being a Complete Exposition of Book-Keepers' Frauds—how Committed, how Discovered, how Prevented. Also, containing a Safe Method of Managing the Cash Department of Retail Stores; a Convenient Method of Keeping a Purchase Account for Commission-Houses, and a Collection Account for Bad Debts. With other Suggestions of Value to Merchants and Book-Keepers in the Managements of Accounts. By H. J. METTENHEIMER. 18mo. Cloth. 1 00

CONTENTS: Book-Keepers' Frauds; Transposition of Figures; Original Ledger Entries and False Ledger Balances; Petty Cash Books; Bill or Note Accounts; City Invoice Books; Short Cash; Book-Keepers' Personal Account; Pay-Rolls; Gold Bills; Collection Account; A well-known Fraud; Salary Signature Book; To Prevent Fraud in the Cash Department of Retail Stores; To Prevent Fraud; An Apology for Book-Keepers; Remedies at Law for Frauds in Book-Keeping; A Check on Hazardous Accounts.

The suggestions made are shrewd and practical, all tending to these two rules, which can not be too forcibly urged upon business men: insist upon minute entries of transactions, and upon an orderly and systematic practice throughout; then use your own eyes, and put unquestioning trust in nobody. No man is fit to be in business who is either too busy, too unskillful, or too indolent to sharply scrutinize with frequency the inside of his affairs. We see no

reason why this little book should not help to make each man his own detective.—*The Financier*.

This little work, it is certain, might be studied with advantage by all men in business, and there is reason to believe that, by enabling them to audit their own accounts, it would save many from falling victims to the long-continued dishonesty of employees.—*British Trade Journal*.

MINOR. ATHOTHIS: A SATIRE ON MODERN MEDICINE. By THOMAS C. MINOR, M.D. 12mo. 1 25

It is not often that we are called upon to read a medical novel, *pur et simple*, but "Athothis" is a novel—a work of fiction—but fiction of such startling reality as to come within the region of fact. It is a dream, whose absolute realism may be demonstrated in every-day life. It is so much in accord with our own observations as to seem to us the expression of our own thoughts. We believe that we can give the names in our city of those whose portraits and peculiarities are so graphically drawn, because they exist in every community. It is this faculty of portraiture of real life that has made Dickens so famous; the creations of an active fancy, that finds prototypes in every community. It is a novel that will be read by every physician with absorbing interest, and by the laity with amazement, that any professional should dare to speak

so plainly. It is a truism as well as a satire, and is intensely interesting. It evinces a wonderful knowledge of the medical writers of all the centuries, from the papyri of Egyptian tombs to the present day, and weaves the ancient transmutation of soul through the whole story with happy effect. We advise our medical brethren to read it. Each one will find himself depicted, very possibly not to his own complacency.—*Pacific Record of Medicine and Surgery*.

This is a book such as the doctor, tired of patients, work, and scientific reading, could take up with pleasure and read more than once through. Its style is excellent, and the author treats the subject with such vivacity that one is never tired. Take it to the country or seashore with you. It will do you good.—*Philadelphia Medical Journal*.

MOOREHEAD. FORT ANCIENT. The Great Pre-historic Earth-work of Warren county, Ohio. From a careful survey made in 1889, with an account of its Mounds, Graves, etc. Illustrated with a new topographical map and 35 full-page phototypes. By WARREN K. MOOREHEAD, of the Smithsonian Institution. 8vo. Cloth. 2 00

This volume is one of the most interesting and valuable publications on the Ohio earth-works yet issued from the press. We cordially commend it to the attention of students and scientists every-where.—*Magazine of American History*.

Mr. Moorehead has generally confined himself to fact; telling what he did and saw, and leaving theories and speculations to others. He has done a great service by this work, and has laid the results open to all in the publication of his history of that labor. The many illustrations enable a clear understanding of every explanation of the printed page.—*Magazine of Western History*.

The book proves to be the result of a very careful and detailed investigation, for which ethnologists will be thankful to the author, even should his theories not find general acceptance. The endeavor, which appears throughout the book, to represent the finds and the methods in which they have been obtained as clearly as possible, which is supported by the excellent illustrations accompanying the descriptions, gives the work value aside from all theoretical considerations.—*Science*.

Those who take up Mr. Moorehead's book, if interested at all in the subject, will be pleased with the long array of facts that have been gathered by him; and the reader can picture to himself Fort Ancient when it

was the site of a busy people—can see with what weapons they fought, with what implements they toiled, with what trinkets they adorned themselves, and how their dead were buried. Mr. Moorehead's book will serve an important, if secondary, purpose, if it shall stimulate research in our country.—*The American*.

The stations—more than four hundred in number—and bearings and distances are all set down in an orderly fashion, and so far as we know any thing to the contrary, the calculations are correctly given. Assuming this fact, Mr. Moorehead is to be congratulated upon the fidelity with which he has performed his task, and we cheerfully accord him our meed of praise.—*The Nation*.

The general conclusions drawn by this enterprising and careful scientist are interesting.—*Cincinnati Commercial Gazette*.

Antiquarian literature has received in this volume of Mr. Moorehead a valuable contribution. In the completeness of its topographical work, its fine illustrations, its thorough excavations made most intelligently, the work is one fully deserving large praise. The writer has sweat and delved amid the same interesting ruins forty years ago, and longed to have solved many many things Mr. Moorehead has determined.—*Chicago Inter-Ocean*.

MOULTON. REVIEW OF BOYNTON. The Review of General Sherman's Memoirs, Examined Chiefly in the Light of its own Evidence. By Col. C. W. MOULTON. 8vo. Paper. 50

A review of "Sherman's Historical Raid. The Memoirs in the Light of the Record. A Review based upon Compilations from the Files of the War Office." By H. V. BOYNTON.

MORGAN. THE SHAKESPEAREAN MYTH; or, William Shakespeare and Circumstantial Evidence. By APPLETON MORGAN, A.M., LL.B., author of "Law of Literature," Notes to "Best's Principles of Evidence," etc. Second edition. 12mo. Cloth. 2 00

The theory certainly has grown in importance of late years. It is no longer flouted as impossible. It is admitted as ingenious, as possible, and even as highly probable by many persons who have gone carefully into the question. It is one of the many puzzles of history and literature which are full of attraction to certain minds. It is very doubtful whether the question can ever be definitely settled. Those, however, who feel inclined to make some little investigation for themselves into the matter, will find Mr. Appleton Morgan's volume exceedingly interesting. Whoever takes the trouble of going through it will find practically all the facts necessary to enable him to form his own judgment in the matter.—*Westminster Review*.

Such works can be read only as strange examples of entertaining paradox; but we must say that in the present instance the paradox is well worked out and cleverly sustained, and persons who, in this age teeming with books really worth attention from educated men, have leisure for such amusements, may occupy some hours profit-

ably in studying the theory of the "Shakespearean Myth."—*London Saturday Review*.

Under the title "The Shakespearean Myth," Mr. Appleton Morgan, who is known as a writer on the "Law of Literature," and the "Principles of Evidence," has collected a large amount of evidence of various kinds to prove that Shakespeare did not write the plays attributed to him. He discusses the theory that they were written by Bacon alone, and the theory that they were written by Bacon and other literary men of that age. The decision to which he comes, and to which he brings facts, satire, criticism, and strong feeling, is that Shakespeare was the editor, and not the author, of the plays. Shakespeare, the rough, uneducated wit, added the coarser and more popular characters and scenes, and it is doubtful whether these liberally edited works can ever be apportioned among the true authors. Mr. Morgan is an enthusiastic admirer of the Shakespeare plays. The book is interesting, whether one agrees with it or not, summing up, as it does, all the doubts in the question that have for a hundred years been made public.—*Boston Daily Advertiser*.

MURDOCH. THE STAGE; or, Recollections of Actors and Acting from an Experience of Fifty Years. A Series of Dramatic Sketches. By JAMES E. MURDOCH. With a Biographical Sketch of the Author. By J. BUNTING. Portrait. 12mo. Cloth. 2 00

The publication of Mr. James E. Murdoch's recollections of actors and acting gathered from an experience of fifty years is a welcome addition to the library of the drama. As an actor eminent in both tragedy and comedy, and as an elocutionist of force and authority, Mr. Murdoch's place among his fellows is well assured; and his opinions therefore should command the respectful hearing of actor, critic and public.—*New York Times*.

This work is of great merit and interest. Besides the purely critical consideration of histrionic notabilities, Mr. Murdoch has given us also a goodly number of anecdotes hitherto unprinted.—*The Nation*.

This is a book of very sensibly written gossip and memoranda by a veteran American actor of considerable note, and one who

has indeed studied the principles of acting, and has observed and understood many different methods of interpreting stage effects. There is about it no small amount of sagacity and common sense. So that it is in a greater degree than is usual with books upon the stage, a practical book of service to students of the profession, as well as fitted to give sufficient entertainment to idle quarters of an hour.—*The Academy, London*.

We quit Mr. Murdoch's book with reluctance. It is so full of genial sketches and amusing anecdotes that theatrical readers in this country will find as much pleasure in its perusal as the countrymen of the author, whose quick, manly and unaffected style throughout adds to the interest of all he relates.—*The Era, London*.

The subject matter is expressed in plain terms, and all unnecessary scientific technicalities omitted; this feature, in addition, also making the book a desirable one for children, who may, through it, gain a correct idea of "life in water," and more especially of the natural history of fishes.

NASH. CRIME AND THE FAMILY. By Hon. SIMEON NASH, author of "Morality and the State," "Pleading and Practice under the Codes of Ohio," etc. 12mo. Cloth. 1 25

This is a most excellent and practical treatise on the cause of crime. It is by the Hon. Simeon Nash, who was for a long time upon the bench in Ohio, and whose attention was called to the subject by the frequent occasion he had, during his services on the bench, to pass sentence upon boys found guilty of crimes. He discusses the subject in a plain, straightforward, practical manner, and shows with considerable conclusiveness that the cause of crime is intimately and practically connected with family government, or rather the want of it. . . . The work will be found of much interest to the reader, and, we have no doubt, of great value to the public.—*Western Jurist.* There is common sense and wisdom enough in "Crime and the Family" to furnish a score of volumes of average weight. . . . This book is clear, direct, practical, and in all respects well adapted to its end. We confidently commend it to parents, sharing the author's opinion that the true policy is to prevent crimes, and that education begins at home.—*Literary World.*

NETTELROTH. A MONOGRAPH OF THE FOSSIL SHELLS OF THE SILURIAN AND DEVONIAN ROCKS OF KENTUCKY. By HENRY NETTELROTH. With 36 lithographic plates, containing 220 species. 4to. Paper. (Geological Survey of Kentucky.) pp. 245. Net, 5 00

NERINCKX. THE LIFE OF THE REV. CHARLES NERINCKX. With a Chapter on the Early Catholic Missions of Kentucky; Copious Notes on the Progress of Catholicity in the United States from 1800 to 1825; an Account of the Establishment of the Society of Jesus in Missouri; and an Historical Sketch of the Sisterhood of Loretto, in Kentucky, Missouri, New Mexico, etc. By Rev. CAMILLUS P. MAES. Portrait. 8vo. Cloth. 2 50

The name of Father Nerinckx is a household word in the State of Kentucky, and we doubt whether among the bright galaxy of missionary priests of the United States during the first quarter of the century there is one more worthy of the tribute of admiration and gratitude of our countrymen. Honored, through the influence of the Most Reverend Doctor John Carroll, with a nomination to the Episcopal dignity, a responsibility which his humility led him persist-

ently to refuse, Father Nerinckx spent himself for Christ's sake in the humbler walks of the sacred ministry. Manuscripts from the Archives of the Archdiocese of Baltimore, and from the Bollandist Library at Brussels, hitherto unpublished, have been made available for the work. No one who takes an interest in the development of the Church in America can afford to be without this treasure of unpublished documents.—*The Ave Maria.*

OHIO. THE FOUNDERS OF OHIO. Brief Sketches of the Forty-eight Pioneers who, under command of General Rufus Putnam, landed at the Mouth of the Muskingum River on the seventh of April, 1788, and commenced the first White Settlement in the North-west Territory. 8vo. Paper. 25

OHIO VALLEY HISTORICAL MISCELLANIES. I. Memorandums of a Tour made by JOSIAH ESPY in the States of Ohio and Kentucky and Indiana Territory, in 1805. II. Two Western Campaigns in the War of 1812-13: 1. Expedition of Capt. H. Brush, with Supplies for General Hull. 2. Expedition of Gov. Meigs, for the relief of Fort Meigs. By SAMUEL WILLIAMS. III. The Leatherwood God; an Account of the Appearance and Pretensions of J. C. Dilks in Eastern Ohio, in 1828. By R. H. TANEYHILL. 8vo. \$2.50. Large paper, Cloth. 5 00

The last volume is one of the most interesting of the series. Mr. Espy's narrative is that of a man with a "curiosity for observation," as he himself says, and with an acute judgment, which led him frequently to conclusions greatly in advance of his time.

. . . The Leatherwood God is one of the most extraordinary narratives of religious fanaticism we have ever met with.—*Nation.*

The Ohio Valley Series are well printed and well got up. . . . In the last volume we find a narrative of operations in the same region, during the war of 1812, and a very curious and interesting account of the achievements of a predecessor of Joe Smith, who appeared for the first time, no one

knew how or whence, at a meeting of the Ohio Methodists in the open air, who laid claim to extraordinary physical and spiritual powers, his possession of which his disciples unhesitatingly believed, and who finally, after duping numbers into a conviction that he was no other than the incarnate Deity, suddenly disappeared, no one knew whither. The story is instructive and significant, as an example of the credulity of a comparatively educated, intelligent, and hard-headed people, when their religious sense and their appetite for marvel and mystery are at once appealed to.—*London Saturday Review.*

The "Ohio Valley Historical Series" may well be termed model books in their way. Inform and execution so dainty and elegant that the East may well look to her laurels in the typographic art, if she would not be outdone by the Cincinnati printers. Nor

are the contents of these volumes less fascinating than their excellencies of mechanical execution. . . . We welcome this noble (though private) enterprise, which has undertaken to give us in so authentic and so handsome a shape these precious historical memorials of the Ohio valley. Their interest is not merely local; it is national in its character.—*New York Genealogical and Biographical Record*.

OSBORN. ANCIENT EGYPT IN THE LIGHT OF MODERN DISCOVERIES.

By H. S. OSBORN, LL.D. Illustrations and map. 12mo. Cloth. 1 25

This work is, perhaps, the most comprehensive, accurate, and recent epitome of any work in the English language, on the subject of which it treats. The author has had in view the putting of the whole subject into the hands of those who wish to be introduced to the true state and advance of Egyptology, in a critical, but popular light. It embraces the discoveries of the past twenty years, wherein those discoveries have been verified by the monuments, both in sculpture and in papyrus, and these verified discoveries are used for historic purposes. The recent discoveries of Naville (1843), those of Brugsch-Bey, Maspero, and others, and the theories of Piazzi Smith, Proctor (1833), etc., are brought together under the light of comparative opinions, and the reader is placed in possession of the authorities, and, in a very small compass, of the entire subject of this wonderful history and people.

Likenesses of ancient Pharaohs, drawn by the author, with great accuracy, from photographs taken in Egypt—typical faces of various tribes from the monuments, etc., are given—in illustration of historic facts, with which all, especially the young, should be acquainted in this day, when so much is carelessly written, giving inaccurate and absolute false views of history and of the sacred Scripture.

PHILIPSON. THE JEW IN ENGLISH FICTION. A Series of Lectures discussing the Dramas and Novels of Prominent English Writers, wherein Jews play important roles—as Marlowe's "Jew of Malta," Shakespeare's "Merchant of Venice," Cumberland's "The Jew," Scott's "Ivanhoe," Dickens's "Oliver Twist" and "Our Mutual Friend," Disraeli's "Coningsby" and "Tancred," and George Eliot's "Daniel Deronda."
By Rabbi DAVID PHILIPSON, D.D. 12mo. Cloth. 1 00

"The Jew in English Fiction," by Rabbi David Philipson, is a judicious study of the Jewish character, as presented by the great English poets and novelists. The Jew has been a stock character with literary men, little attempt being made to understand him as he is. The early writers made him unnaturally mean, and showed nothing but prejudice in conceiving his character. Then came Scott and Dickens, who were too sentimental in their estimate of him, and though trying to be truthful, did not understand him sufficiently well to describe him as he actually is. George Eliot is highly praised for making the utmost effort to be truthful, which she was in almost every particular. The book is a most interesting literary study; critical; earnest, and showing a fine cosmopolitan spirit. It proves that the old spirit of intolerance is gradually dying out, and that the Jew is coming to treat others in a liberal spirit, and to be treated by others with consideration and respect.—*The Critic, N. Y.*

The Rabbi's book is thoughtful and well-written. . . . We fully recognize the ability and the knowledge with which he has treated his theme. . . . His criticism is generally inspired by common sense, and he is more concerned to get at the truth than to use his subject as a stalking horse for the literary fads, the pretentious discoveries, and the over-subtle analyses, in which the literary essayists delight.—*Jewish Standard, London.*

This is a useful and interesting book, and it is written throughout in the best possible spirit. . . . Rabbi Philipson has done good service to his race by this volume, and he has certainly written nothing to ruffle the sensibilities of those who may differ from him.—*The Spectator, London.*

An important addendum to the criticism of English fiction, especially as far as the Jewish characters are concerned. . . . The canon of criticism rests on a high plane, and is strictly applied to every author spoken of, which makes the volume quite valuable to a large circle of critical readers and reviewers, and instructive to the general class of readers of fiction, who seek instruction in the beguiling garb of amusement; although this is of special service to those who desire to have a correct conception of Jewish character, and of the reasons why this character, more than others, was so farcically caricatured by writers of fiction.—*American Israelite, Cincinnati.*

Dr. Philipson's lectures on "The Jew in English Fiction," attracted considerable attention at the time of their delivery, and they should be welcomed in this more permanent form as the expression of educated Jewish sentiment upon an interesting question. . . . Many of the views expressed in this little volume are doubtless new to most readers, and the lectures generally are full of interest, and shrewd, sagacious reflection.—*New York Tribune.*

PETER. MEMOIRS OF THE LIFE OF MRS. SARAH PETER. By MARGARET R. KING. 2 portraits. 2 vols. 12mo. Cloth. Net. 4 00

These are the memoirs of a very remarkable woman, and of a life of deeds of mercy and charity. Mrs. Peter was a native of Ohio, a daughter of Governor Worthington. She was married first to Edward King, a lawyer of prominence. Until middle life, she was known as an active member of the Protestant Episcopal Church; later she attached herself to the Church of Rome, and

for the rest of her life found in its wide charities full scope for all her desire to benefit humanity. Mrs. Peter made frequent voyages to Europe and the Orient. Her letters, which form a large portion of these volumes, give the results of her wonderfully observant travels, and of her intimate relations with European society.

PIATT. AT THE HOLY WELL. With a Handful of New Verses. By JOHN JAMES PIATT. 12mo. 1 00

A varied collection of poems put together in a pleasant way. This veritable handful and some prettily written "Love Letters" would not be characteristic of the author help to make up this pleasant volume, which if it did not contain a number of poems closes with an artistic word picture of Ireland which are full of prairie breezes and land.—*Queries* bounded by "The Horizon of the Western

PIATT. THE CHILDREN-OUT-OF-DOORS. A Book of Verses. By TWO IN ONE HOME. 16mo. Cloth. 1 25

This volume is composed of an attractive collection of some of the more recent productions of two widely known and popular American poets, who chose to appear thus anonymously, though it is an "open secret" that the authors are John James Piatt, United States Consul at Cork, Ireland, and his gifted wife, Mrs. S. M. B. Piatt.

PIATT. PENCILLED FLY-LEAVES. A Book of Essays in Town and Country. "How the Bishop Built his College in the Woods," etc. By JOHN JAMES PIATT. 16mo. Cloth. 1 00

Those who have followed the author's very creditable journalistic career will recognize some of the essays as old acquaintances, and be glad to find that they have abandoned their fugitive existence and gained a permanent abode. Others have new faces, but they will be welcomed to the brotherhood into which they have been gathered. "How the Bishop Built His College in the Woods," a very interesting account of Bishop Chase's work in founding Kenyon College, is the piece de resistance

of the feast. The miscellanies which precede it are generally trifles, if length only is to be considered, but they are none the less appetizing. The poetry of many writers is only respectable prose. Mr. Piatt's prose is full of poetry. Less subjective than his verse, it retains many of its beauties and adds a subtle aroma of that geniality, more easy to appreciate than to describe, which gives such an attraction to the writings of Lamb and Howells.—*Cincinnati Gazette*.

PIATT. CHILD'S-WORLD BALLADS. Three Little Emigrants. A Romance of Cork Harbour, 1884. etc. By SARAH M. B. PIATT. 12mo. Cloth, \$1.00. Parchment, 1 25

A charming group—light and graceful in spirit and treatment—of such poems relating to children, their ways of action, thought, and speech, as have heretofore gained for the author, both in America and Great Britain, a special distinction for originality, piquant grace of expression and style, with exquisite pathos, beauty, and tenderness. Several of these new "Ballads" embody quaint or pathetic stories in which children are the characters.

Poems concerning children, which, perhaps, more than any other feature, set the book apart from any other book we have ever read. Its insight into child life, the *naïveté* of a child's thoughts, here so accurately rendered, will make the book especially lovable to grown lovers of children.—*Irish Monthly*.

She has especial power of entering into the child life, and she is not afraid to let children speak in her verse as they speak in life.—*London Pictorial World*.

Allusion must be made to her wonderful, and, as it would seem, intuitive power of analyzing child nature.—*Lohdon Figaro*.

POOLE. ANTI-SLAVERY BEFORE 1800. An Essay. Read before the Cincinnati Literary Club, November 16, 1872. By WILLIAM F. POOLE. To which is appended a fac-simile reprint of George Buchanan's Oration on the Moral and Political Evil of Slavery, delivered at a Public Meeting of the Maryland Society for Promoting the Abolition of Slavery, Baltimore, July 4, 1791. 8vo. Paper, 75c. Cloth, 1 25

Mr. Poole has made a careful and diligent inquiry how far the opinions of Dr. Buchanan represent the current sentiment of that time on the subject of slavery. In pursuing that inquiry he finds that the opinions and sentiments of most of the leading public men in the Middle and Southern States were not only hostile to the continuance of the African slave trade, but that on both moral and economical grounds they were earnestly desirous of extinguishing

domestic slavery as fast as it could be done safely and lawfully. . . . In connection with the text, Mr. Poole gives much biographical, anecdotal, and statistical matter, which enhances the interest and merits of the work. The volume is handsomely printed, and must be regarded as a very valuable contribution to the literature of the subject on which it treats.—*New England Historical and Genealogical Register*.

PRENTICE. THE POEMS OF GEORGE D. PRENTICE. Now first collected and edited, with a Biographical Sketch, by *John James Piatt*, author of "Western Windows," etc. Illustrated with a fine steel-plate portrait of Mr. Prentice. 12mo. Cloth, \$2.00. Cloth, gilt edges, \$2.50. Full morocco, gilt, 5 00

Since the death of George D. Prentice, there has been a constant demand for an edition of his poems. Mr. Piatt, who was intimately associated with him, has made this collection, procuring his materials from widely-scattered sources, and, in some cases, from original manuscripts. It is believed to be a collection such as Mr. Prentice himself would have approved, and it faithfully represents his abilities as a poet.

While Mr. Prentice will always be remembered for the bright and witty sayings which he so profusely lavished in the columns of the *Louisville Journal*, his lasting record will be found in the beautiful verses which are collected in this volume.

This, we believe, is the first publication of Prentice's poems, in a collected shape, and it is a book that a great many people will wish to possess—both for its intrinsic value and as a souvenir of a friend.—*St. Louis Republican*.

QUICK. ESSAYS ON EDUCATIONAL REFORMERS. By ROBERT HERBERT QUICK, M. A., Trinity College, Cambridge. 12mo. Cloth. 1 00

CONTENTS: Schools of the Jesuits; Ascham, Montaigne, Ratich, Milton; Comenius; Locke; Rousseau's Emile; Basidow and the Philanthropin; Pestalozzi; Jacotot; Herbert Spencer; Thoughts and Suggestions about Teaching Children; Some Remarks about Moral and Religious Education; Appendix.

We have read this book twice. There is no other *resumé* that is at once so brief and so comprehensive. We do not see how intelligent parents, teachers, and school directors can afford to be without it. . . . The influence it could exercise is just now much needed in our national educational system.—*Atlantic Monthly*.

The essays are finely written, in classic English, and in the true professional spirit of an experienced and accomplished teacher.—*The College Courier*.

We know of no book more suggestive and instructive on this subject.—*The Massachusetts Teacher*.

We have been better pleased with this than with any solid work on education that has been placed in our hands for the last two years. . . . Not a page can be turned without disclosing to the teacher valuable principles of his profession. For class work

in normal schools we believe it to be superior. It is seldom that we so unhesitatingly recommend the purchase of a book.—*Illinois Schoolmaster*.

The principles which underlie all correct modes and methods of teaching must and will be sought after by those who are determined to place themselves in the advanced line of teachers. To those who desire to have, in a brief form, the statements and works of those who have been the foremost in changing the ideas of teaching from time to time, we cheerfully recommend this work.—*Maine Journal of Education*.

It is the most catholic, readable, and valuable work on matters educational that has yet been published. For the honor of our craft, teachers, do buy it, and come to know a little about the business in which you are engaged.—*Chicago Teacher*.

RANCK. HISTORY OF LEXINGTON, KENTUCKY. Its Early Annals and Recent Progress, including Biographical Sketches and Personal Reminiscences of the Pioneer Settlers, Notices of Prominent Citizens, etc. By GEORGE W. RANCK. 8vo. Cloth. 4 00

It is very seldom that any locality can secure so faithful an annalist as Mr. Ranck has proved himself to be; and we very rarely find a work of this class which has been prepared with such evidently untiring industry. Nothing seems to have been forgotten or overlooked of what Lexington has ever seen or ever done; and it seems that no one has ever set foot within her boundaries without finding a place in this admirable record.—*Historical Magazine*.

RANDALL. THE WONDERFUL TENT. An Account of the Erection, Signification, and Spiritual Lessons of the Mosaic Tabernacle, erected in the Wilderness of Sinai. By REV. D. A. RANDALL, D.D. With a Biographical Sketch of the Author, and portrait. 12mo. Cloth. 2 00

REED. THE VICKSBURG CAMPAIGN, and the Battles about Chattanooga, under the Command of General U. S. Grant, in 1862-63. An Historical Review. By SAMUEL ROCKWELL REED. 8vo. Cloth. 1 50

Mr. Reed has furnished a volume of very spicy reading. Taking Badeau's Life of Grant as his text, with references to Gen. Sherman's Memoirs, Mr. Reed attacks the soldiery of both Grant and Sherman at every point at Vicksburg and at Chattanooga. —*Army and Navy Journal*.

The volume can be unreservedly commended to all students of war history. It is one of the most careful and courageous pieces of historical criticism to which our voluminous military literature has given

rise. The iconoclasts will enjoy it, and even the image worshipers may read it with interest and profit. —*N. Y. Tribune*.

No work of military criticism so temperate in its tone, so thorough a study of events and situations, so impartial in its analysis, so manifestly just in its conclusions, and at the same time so severe in its implications, has been written in this, perhaps in any other, time and country. —*Washington Chronicle*.

REEMELIN. THE WINE-MAKER'S MANUAL. A Plain, Practical Guide to all the Operations for the Manufacture of Still and Sparkling Wines; embracing Chapters on the Vintage; When and How to Pick and Cull Grapes; Preparations for Wine-Making; The Ingredients and Improvements of "Must;" Fermentation and the Changes produced by it; The Heating or Firing, Keeping and Bottling of Wines; Still, Sparkling, Sweet, Spiced, and Frozen Wines; Wine Colors, The Constituent Acidity, and Ailments of Wine; Artificial and Imitation Wines. The work also contains full instructions for making Cider, Fruit, and Berry Wines, etc. By CHARLES REEMELIN, author of the "Vine-Dresser's Manual." 12mo. Cloth. 1 25

This is a valuable acquisition, as all will readily testify who have need of instruction in wine-making. The questions involved in the various processes of manufacture are treated with great ability, and we should advise every one who has any desire to learn any thing upon this important subject to possess himself of a copy. —*Ruralist*.

Discusses every point connected with wine-making; gathering grapes, pressing out

the juice, wine presses, must; nature and improvement of fermentation, cellars, bottling, etc. All the modern processes for improving wine are given, and the subject discussed in the light of the most recent discoveries in chemistry. The remarks on the processes for correcting over acidity, the want of sugar in our grapes, will prove particularly interesting. —*Southern Cultivator*.

REEMELIN. TREATISE ON POLITICS AS A SCIENCE. By CHARLES REEMELIN. 8vo. Cloth. 1 50

The design of the work is to lend a helping hand to the politicians who seek in public life the perpetuation of good government, as against the spurious politicians,

who look upon politics as step-ladders to power, and to whom a good government is a defeat of their schemes. —*Preface*.

REEMELIN. CRITICAL REVIEW OF AMERICAN POLITICS. By CHARLES REEMELIN. 8vo. Cloth. 3 00

It is an attempt to present a rational and philosophical survey of the history of American party government, from the establishment of the constitution to the present time. It is the work of a writer now nearly seventy years old, who has had great opportunities for the close observation of the working of the machinery of partyism, and who, having overcome his earlier party bias, approaches his subject in a spirit of great candor and fairness.—*Chicago Times*.

He aims at a comprehensive and philo-

sophical course of political reasoning. In his opinion, the great American public disease is that the present government, by party, places the public administration, from the President down to township officers, in the hands of mere politicians. He regards American party government with its spoils system, as an illegitimate parasite, more destructive of legitimate public interests, and eating up more of the substance of the people than any tyranny recorded in history.—*New York Times*.

REEMELIN. GREENE TOWNSHIP. Historical Sketch of Greene Township, Hamilton County, Ohio. By CHARLES REEMELIN. With folded list of settlers from 1802 to 1850. 8vo. Paper. 25

REICH. HISTORY OF CIVILIZATION. A Course of Lectures on the Origin and Development of the Main Institutions of Mankind. By EMIL REICH, *doctor juris* Vienna University. Illustrated. 12mo. Cloth. 2 00

Dr. Reich has placed in our hands the few remaining copies of this privately printed book.

A fascinating book. It contains a world of both facts and ideas.—*Dr. W. F. Poole, Newbury Library, Chicago*.

RICHARDSON. HOME-MADE CANDIES, AND OTHER GOOD THINGS, SWEET AND SOUR. By ANNA M. RICHARDSON. 12mo. 1 00

The author gives plain and easily understood directions for making, with the ordinary conveniences of the kitchen, many odd and delicious things.

Besides the simple candies, cooked and uncooked, the work contains recipes for many novel delicacies, such as raisin roly poly, candy puddings, stuffed figs, home-made drinks, and odd varieties of pickles, creams, ices, etc. They are mainly original, and all tried and proved by years of experience.

Any lady using this book will soon be enabled to supply her table with many unusual delicacies in candies, creams, etc., better, cheaper, purer, and fresher than those supplied by confectioners.

In these days, when home-made candies are so highly appreciated, there are many women who succeed in materially adding to their incomes by making them for sale, and a few who make a good living by supplying them to the Exchanges for Women's Work,

which are now established in most of our large cities. The recipes in this book fairly make one's mouth water as one reads them. The "other things" mentioned in the title are various creams, ices, cordials, and—pickles.—*Woman's Illustrated World*.

RIVES. PHYSIOLOGICAL ARRANGEMENT OF THE CRANIAL NERVES.

A Chart, 15 x 23, folded in cloth case. By EDWARD RIVES, M. D. 60

ROBERT. CHARCOAL DRAWING. Charcoal Drawing without a Master. A Complete Treatise in Landscape Drawing in Charcoal; with Lessons and Studies after Allongé. By KARL ROBERT. Translated by Elizabeth Haven Appleton. Illustrated. 8vo. Cloth. 1 00

"Charcoal Drawing without a Master," in France, has gone through many editions, and has received the stamp of approval of some of the best artists.—*Art Amateur*.

The author enters minutely into the simplest details of the art, and gives clear instructions as to materials, accessories, and methods.—*Harper's Magazine*.

This treatise on an art which, as the preface says, has rapidly become popular, because, while it does not exact much study, gives prompt and satisfactory results, is acceptable and timely. It seems to be accu-

rately translated, and no point of instruction is omitted. The plates, after Allongé, are admirably reproduced and are valuable in themselves.—*Art Interchange*.

This little book is a complete practical treatise on landscape drawing in charcoal, an art of recent development, and one of great opportunities. . . . The book is gotten up in the best style, illustrated to show grades and effects of charcoal work, and is a desirable addition to current art literature.—*The Artisan*.

ROSENTHAL. MANUAL FOR BUILDING AND LOAN ASSOCIATIONS.

Embracing the Origin and History of Co-operative Societies; Objects and Benefits of Building Associations; Plans and Methods of Organizing and Conducting them; Leagues; Legislation; Constitution and By-Laws; Forms and Descriptions of Books, Blanks and Papers; Interest and Dividend Tables; Auditing and Supervision; the National Associations; and a Comprehensive Variety of Practical and Useful Information and Suggestions. By HENRY T. ROSENTHAL. 12mo. Second edition, enlarged and revised. 1 50

The business of conducting building associations requires much special knowledge, as well as good judgment and practical intelligence. This Manual will be an indispensable book of reference for every company, and individual members will find it a valuable guide and instructive treatise.—*Cincinnati Commercial Gazette*.

The *Journal* predicts for this book, not only that it will meet with a ready sale, but that it will meet the commendation it merits. We commend the book to every present and prospective member of an association, assuring them that they can not afford to be without it. Get it and read it.—*Toledo Building and Loan Association Journal*.

This book should be in the hands of every association, as it contains all the necessary practical information for conducting these associations. Members of the board of directors, who wish to have a certain control over the secretary and attorney, will find

all necessary information. The tabulated statements and calculations are of great value to the secretary in declaring dividends, etc. All difficult questions arising in building associations have been answered in a clear and plain manner. As we have had practical experience in these associations, we must state that if this book is in the hands of officers and by careful perusal of same, many serious mistakes can be avoided.—*Cincinnati Volksblatt*.

I am much pleased with the book. The general directions as to the organization and conduct of associations, hints as to management, and tables, are admirable and valuable. I believe its publication will go far to correct the abuses which in some cases have grown up from want of knowledge as to the proper manner of conducting building associations.—*A. A. Winters, Secretary Mutual Home and Savings Association, Dayton, O.*

ROY. THE ART OF PLEASING. A Lecture. By GEORGE ROY,
author of "Generalship." 12mo. Paper. 25

How many would be pleased to discover the "art of pleasing." This little volume furnishes the touchstone of success, and will be found of an interest in keeping with the subject. The moral tone which per-

vades the narrative is one of the most commendable of its features.—*City Item*.

They are both made up of pleasant bits of sketching, scraps of verse and romance, well seasoned with good common sense.—*Inter-Ocean*.

ROY. THE OLD, OLD STORY. A Lecture. By GEORGE ROY,
author of "Generalship." 12mo. Paper. 25

The "Old, Old Story" is made up of pas-

sages from Burns, Goethe, Shakespeare, and others, showing the opinions of each author on the subject of love. The author interlards his quotations with moral reflections of his own, and closes by giving advice to lovers in general.—*Boston Globe*.

RUSSELL. THOMAS CORWIN. A Sketch. By A. P. RUSSELL,
author of "Library Notes." With a finely engraved portrait of Mr. Corwin. 16mo. Cloth, 1 00

It is a free sketch of a great genius by an acquaintance and admirer. It is not expanded to bigness and dullness by a tedious recital of dry facts and uninteresting incidents, but is confined to such statements, references, and illustrations as give a fair idea of the eminent man's character and genius. It is, in fact, and in a word, the author's Corwin, as he saw him and understood him. It abounds in anecdotes and illustrations of the most entertaining character. Though small in bulk, it is more extensive and elaborate than any thing that has yet appeared relating to the great orator, and, it is believed, will be found more interesting and satisfactory.

RUSSELL. SCIENTIFIC HORSESHOEING FOR THE DIFFERENT DISEASES OF THE FOOT. By WILLIAM RUSSELL, Practical Horseshoer. Illustrated. Second edition, enlarged. 8vo. Cloth. 3 00

The author of this book has been a practicing farrier for more than forty years. His record is one of rare success, and he has long been recognized by the leading horsemen of this country as the foremost shoeing smith of the age.

This book aims to give the practical details of the most approved and rational plans and principles of Horseshoeing in the plainest and most complete manner possible. A large share of the work is devoted to the diseases of the foot, and the subject of pathological shoeing is fully treated.

A work of this kind, explaining the principles of the art, and describing the whole process of shoeing, is greatly needed.—*Vermont Record and Farmer*.

He thoroughly understands his subject.
... Diseases induced by bad shoeing and

cured by good shoeing are clearly and fully set forth.—*Philadelphia Times*.

The book is, indeed, well worth its price to every horse-owner and blacksmith in the land.—*The Country Gentleman*.

SCOTCH-IRISH SOCIETY OF AMERICA. Proceedings of the First Congress held at Columbia, Tenn., May 8-11, 1889. 8vo. pp. 210. Of the Second Congress held at Pittsburgh, May 29-June 1, 1890. pp. 305. Of the Third Congress held at Louisville. May 14-17, 1891. pp. 325. Each, paper, \$1.00; cloth, 1 50

THE ST. CLAIR PAPERS. The Life and Public Services of Arthur St. Clair, Soldier of the Revolutionary War, President of the Continental Congress, and Governor of the Northwestern Territory. With his Correspondence and other Papers, arranged and annotated. By Hon. WM. HENRY SMITH, of Chicago. 2 vols. 8vo. Cloth. With two portraits and a map. 6 00

The author makes conspicuous the genius, ability, patriotism, and courage of St. Clair, heretofore unjustly neglected by historians; adds new interest to the brilliant exploits on the Delaware in the winter of 1776-77, and for the first time, places before the reader a complete account of the evacuation of Ticonderoga and Mount Independence in July, 1777, which resulted in the capture of Burgoyne and his army. He corrects errors committed by previous historians, and on controverted points, presents new views drawn from hitherto unpublished materials.

Prefaced to the papers is a summarized record of St. Clair's whole career, now for the first time authentically prepared. Mr. Smith's work gives evidence of a thorough study of the subjects in all their bearings, and renders the publication one of the most important recent contributions to American history. With great patience and a reasonable freedom from bias, he has presented the facts for candid consideration; and he has well-nigh vindicated St. Clair from the most of what the public has had to urge in his condemnation, at the same time strikingly indicating the unremitting sinister fortune which attended him.—*New England Historical and Genealogical Register*.

The value of the original material furnished in these volumes is very great; and army officers who take an interest in the history of the Revolutionary forces, and

also in the army, as it existed in the closing years of the last century, and the beginning of the present, will find this work a mine of information.—*Army and Navy Journal*.

... A fortunate choice of an editor was made in William Henry Smith, formerly Secretary of State of Ohio, to whom the career of St. Clair has been the subject of special study. From his pen comes the interesting memoir prefixed to these papers, which rescues the memory of St. Clair from unjust aspersion and undeserved forgetfulness, and shows him as he really was, a frank and noble man, a cultured and polished gentleman, a gallant and skillful soldier, an able and unselfish statesman, and places his name very near to that of Washington. And it is difficult to deny it this honor, after a careful perusal of Mr. Smith's loving tribute to his hero.—*The American*.

SATTLER. THE HISTORY OF TUBERCULOSIS FROM THE TIME OF SYLVIVS TO THE PRESENT DAY: Being in part a Translation, with Notes and Additions, from the German of Dr. ARNOLD SPINA, First Assistant in the Laboratory of Professor Stricker, Vienna. Containing, also, an account of the Researches and Discoveries of ROBERT KOCH, and other recent Investigators. By ERIC E. SATTLER, M.D. 1 vol. 12mo. Cloth. 1 25

It is one of the most concise *resumes* of what has been said concerning the pathological anatomy and histology of tuberculosis.—*New York Medical Record*.

Dr. Sattler has performed a very praiseworthy work in thus presenting to the English reading part of the profession so elegant a translation of Spina's latest work. He has given us, in a clear and unbiased manner, the researches of Koch and others, together with the investigations of Spina, which are thought to refute the theory of the germ origin of phthisis. . . . No other work with

which we are acquainted will give the reader so good a knowledge of the history of phthisis and the present status of our knowledge regarding its etiology as the one under review.—*Cincinnati Lancet and Clinic*.

It is a timely contribution to the subject of tuberculosis, especially in the light of the recent investigations and heated controversies. We commend this volume to those who are desirous of bringing their knowledge of the very voluminous subject of tuberculosis up to its latest development.—*North Carolina Medical Journal*.

Forms of all the more important classes of transactions, and especially such as require to be performed with legal precision, are given with such instructions and directions as the practice and laws of the respective States relating to the same seem to demand.

SHEPHERD. THE ANTIQUITIES OF THE STATE OF OHIO. Full and accurate descriptions of the Works of the Mound Builders; Defensive and Sacred Inclosures; Mounds, Cemeteries and Tombs, and their contents—Implements, Ornaments, Sculptures, etc. Illustrated with Maps, Plans, Views, and Relics. By HENRY A. SHEPHERD. 4to. Cloth. 2 00

The extensive and elaborate remains of the Mound Builders in Ohio early engaged the attention of American and foreign archæologists. In 1820 the American Antiquarian Society issued as their first volume Caleb Atwater's "Antiquities of Ohio and the West;" and later, in 1848, the Smithsonian Institution issued as the first volume of its "Contributions to Knowledge" the fine quarto volume on the "Ancient Monuments of the Mississippi Valley," by Messrs. Squier and Davis. These works treat largely of the pre-historic remains of Ohio, but since their time more extensive explorations have been made, resulting in many new discoveries. More accurate surveys have also been made of the principal works. The author, in the present work, has endeavored to embody in it the results of all these recent discoveries, including extensive original surveys and explorations. He has critically digested much of the floating information that has been diffused through scores of works on American antiquities, reports of scientific societies, local histories, periodicals, etc., and thus presents in compact form an amount of archæological information which can not readily be obtained elsewhere. The illustrations have been especially prepared for this work, some from authentic designs already published, and others from original plans and drawings.

SHERMAN. JOHN SHERMAN. WHAT HE HAS SAID AND DONE.
Being a History of his Life and Public Services. By Rev. S. A. BRONSON,
D.D. Portrait. 12mo. 75

No name in current history is more familiar to American readers than the name of John Sherman. It has for a long period of years been an honored name, and never more honored than in the lives of the two brothers, one of which is the subject of this sketch. . . . The pages deal mainly in facts relating to his public career, and no effort is made to be overeulogistic. Such a life as that of John Sherman speaks best when written up from the public records. It is a pleasant and well written biography, and honest and patriotic Americans know that it is a life which has been devoted to the public interest with large tact and ability and faithfulness.—*Inter-Ocean, Chicago.*

SKINNER. KEY TO THE HEBREW-EGYPTIAN MYSTERY IN THE SOURCE OF MEASURES. Originating the British Inch and the Ancient Cubit, by which was built the Great Pyramid of Egypt and the Temple of Solomon; and through the possession and use of which, Man, assuming to realize the Creative Law of the Deity, set it forth in a mystery, among the Hebrews called Kabbala. By J. RALSTON SKINNER. 8vo. Cloth. Net. 5 00

SMITH (H.) SPINOZA AND HIS ENVIRONMENT. A Critical Essay.
With a Translation of the Ethics. By the late PROF. HENRY SMITH, D.D.,
LL.D., of Lane Seminary. 8vo. Cloth. 3 00

The author, an unusually successful teacher of philosophy, presents us in this work with the fruits of his ripe scholarship. Beginning with Francis Bacon he traces the history of modern philosophy down to Coleridge. In the discussion he devotes especial attention to the fundamental problem—is there *a priori* knowledge? This question the author answers in the negative. Himself a pronounced Baconian, he sees in the speculative reasoning of Descartes and Spinoza no real advancement of learning. At the same time he does ample justice to the brilliant genius of both these thinkers. In order to perfect fairness a translation of Spinoza's Ethics is appended to the work.

SMITH (J.) CAPTIVITY WITH THE INDIANS. A reprint of "An Account of the Remarkable Occurrences in the Life and Travels of Colonel JAMES SMITH (now a citizen of Bourbon county, Ky.), during his Captivity with the Indians in the years 1755, '56, '57, '58, and '59. In which the Customs, Manners, Traditions, Theological Sentiments, Mode of Warfare, Military Tactics, Discipline, and Encampments, Treatment of Prisoners, etc., are better explained and more minutely related than has been heretofore done by any author on that subject. Together with a Description of the Soil, Timber, and Waters where he traveled with the Indians during his captivity. To which is added a Brief Account of some very uncommon Occurrences which transpired after his return from captivity; as well as of the different Campaigns carried on against the Indians to the westward of Fort Pitt, since the year 1755 to the present date. Written by himself. Lexington: printed by John Bradford, on Main street, 1799." 8vo., \$2.50. Large paper, cloth, 5 00

The narrative of such a man, concerning what he actually saw and endured, would be interesting under any circumstances, but in such a case as this, wherein his story extended over the history of what is now the third State of the Union, during a term of years, it necessarily possesses unusual interest to those who occupy that territory, and to all students of American history the world over. It is enriched with appropriate notes, sufficiently numerous and amply sustained by competent authorities, from the

pen of our respected friend, Wm. M. Darlington, Esq., of Pittsburgh. A good index closes the volume.—*Historical Magazine*.

A remarkable, graphic picture of Indian life. Smith was adopted into a tribe, and lived with the Indians for four years. His curious account is reproduced in all its piquant originality of expression, and makes one of the most faithful representations of savage existence of which we have any knowledge.—*Galaxy*.

SPARMANN. AN ATTEMPT AT AN ANALYSIS OF MUSIC. By HELEN M. SPARMANN. Square 12mo. Paper. 50

STANTON. JACOB BROWN, AND OTHER POEMS. By HENRY T. STANTON, author of "The Moneyless Man," etc. 12mo. Cloth, \$1.50

This new volume has been carefully compiled from his later and better poems, many of which have already appeared in some of the best eastern journals, which have always paid him liberally for his productions.

The author of "Culex in Carminæ," which won such wide popularity, has excelled himself in the poem "Jacob Brown," which we publish in this number, and which for quaintness of conceit, as well as of expression, has few parallels in our language. In originality it certainly is not exceeded by Hart or Hay or Joaquin Miller, while in versification it has not been surpassed since Poe's day.—*Frank Leslie's Illustrated News*.

The title-poem is bright with humor and strong in satire. One of the most broadly humorous poems in the volume 'Culex in Carminæ,' but it has a mora. Jarson Gilles is rather rough, but funny. The author husbands his wit till the end of his poem, when it bursts out like a rocket.—*Literary World*.

STANTON. THE MONEYLESS MAN, AND OTHER POEMS. By HENRY T. STANTON. New edition. 12mo. Cloth. 1 50

STEVENSON. LETTERS FROM THE ARMY, 1862-1864. By B. F.

STEVENSON, Surgeon of the Twenty-second Kentucky Infantry. 12mo. 1 00

Letters written as the author thought and felt under the surroundings and emergencies of the day, without thought of publication. The epistolary form is not generally esteemed the best for the purpose of the author—that of furnishing some memoranda of the marchings, countermarchings, and conflicts in which his regiment participated; but having once told his story in that form, he distrusted his ability to turn it into narrative, and at the same time preserve the air of *verisimilitude* which the epistolary form permits.

STUDER. COLUMBUS, OHIO. Its History, Resources, and Pro-

gress, from its Settlement to the Present Time. With map and numerous illustrations. By JACOB H. STUDER. 12mo. Cloth. 2 00

This handsomely illustrated and well-printed volume is really one of the most interesting of local histories with which the writer is acquainted.—*Historical Record*.

It is now seventy-one years since the State of Ohio was admitted into the Union, and sixty-one since Columbus was selected as its capital. The progress of the State and its capital in the subsequent six decades has

been most extraordinary. Columbus has become a city, distinguished for the intelligence, enterprise, and wealth of its fast multiplying population. Mr. Studer's book seems to be a carefully prepared and very full history, and will be found to be a useful compendium of information.—*New England Historical and Genealogical Register*.

SWAN. ONCE A YEAR; or, the Doctor's Puzzle. A Novel. By

ELIZA B. SWAN. 16mo. Cloth. 1 00

The scene of this pleasing little romance is laid at some famous mineral springs, situated in a valley, high up in the picturesque Blue Ridge Mountains. At such a place, groups of temporary visitors are ever to be found in the "season," seeking the relaxation and jollity of a vacation. The *dramatis personæ* are of a high class as regards intellect and social status. In fact they are

worth knowing. We may add that at least one marriage occurs in this narrative. The volume is neat, well bound, and particularly well written.—*Philadelphia Evening News*.

The book contains some little punning, a pinch of tariff, with a very big cup of summer boarding-house fun and frolic thrown in, and altogether we have felt an unusual interest in the book.—*N. Y. Independent*.

SWAN. THE OPAL QUEEN. A Novel. By ELIZA B. SWAN.

12mo. Cloth. 1 25

There is wit and wisdom to amuse and entertain, learning and philosophy to instruct, and in the appendix, a successful revival of the Socratic Dialogue teaches, in a way wholly unique, droll, and piquant, how to make progress in the "literary art," and discusses methods of work in that line.

TANEYHILL. THE LEATHERWOOD GOD. An Account of the Appearance and Pretensions of Joseph C. Dilks in Eastern Ohio, in 1828.

By R. H. TANEYHILL. 12mo. Paper. 30

The Leatherwood God is one of the most extraordinary narrations of religious fanaticism we have ever met with.—*The Nation*.

A very curious and interesting account of the achievements of a predecessor of Joe Smith, who appeared for the first time, no one knew how or whence, at a meeting of the Ohio Methodists in the open air, who laid claim to extraordinary physical and spiritual powers, his possession of which his disciples unhesitatingly believed, and

who finally, after duping numbers into a conviction that he was no other than the incarnate Deity, suddenly disappeared no one knew whither. The story is instructive and significant, as an example of the credulity of a comparatively educated, intelligent, and hard-headed people, when their religious sense and their appetite for marvel and mystery are at once appealed to.—*London Saturday Review*.

TEN BROOK. AMERICAN STATE UNIVERSITIES. Their Origin and Progress; a History of Congressional University Land-Grants; a Particular Account of the Rise and Development of the University of Michigan, and Hints toward the Future of the American University System. By ANDREW TEN BROOK, Librarian of the University of Michigan. 8vo. Cloth. 2 00

This work originated in a series of sketches of early university history, and especially of the University of Michigan, as a typical State University, for the *University Chronicle*. They have been elaborated and supplemented so as to take in the whole subject of State Universities. It gives a survey of the early conditions of the old States as to culture; then that of the newer States; congressional action as it concerns all these States in common; then that particular solution of the problem, which seems to be most nearly and satisfactorily completed, with suggestion as to the future.

In giving the public the volume before us, Mr. Ten Brook has made a substantial contribution to the history of higher education in America. . . . We hail the work as, for the most part, an original contribution to the educational history of our country. We are sure it contains much information that needs to be disseminated. We are also sure that it will greatly interest every inquiring educator.—*North American Review*.

The style of the author gives an easy and interesting narrative, and the warp of dates, statistics, etc., is interwoven with a story of personal and educational interest, which

makes the work one of the most readable to the general reader, as well as to the educational explorer. . . . Educators everywhere will read this valuable contribution with pleasure and profit.—*New England Journal of Education*.

The author has produced in this volume a comprehensive and valuable sketch of early educational efforts in all sections of the country. So far as our knowledge extends, no other writer has wrought in the same field, certainly none with more complete and satisfactory results.—*Literary World*.

TALES FOR A STORMY NIGHT. Translated from the French of Tourguéneff, Balzac, Mérimée and Alphonse Daudet. By MRS. SUSAN WALKER LONGWORTH, MRS. MARIA LONGWORTH STORER and EUGENE F. BLISS. 12mo. Paper, 50c.; cloth, 1 00

It is a genuine pleasure to welcome this volume. The collection of tales comprised within it is unique. . . . They are rare flights of the souls of great artists into the lonely realm of the extraordinary, and they exist only for those far-seeing eyes that can follow the trackless flight. In the first story, for instance, there is the sudden, swift, giddy, whirling, zigzag flight of the mind of Tourguéneff out into chaos, into nothingness—anywhither, everywhither—as though flying with one wing of Rafael

and one of Lucifer; and the visions are those of a half-angel, half-fiend. Nothing in literature approaches in awfulness the description of death here given. "The Venus of Ille" is a flight of the mind of Mérimée along the low borderland of classic grace and rustic superstition. The two stories of Balzac are flights—the one into the shadowy domain of holy legend, the other into the frozen fields of history and the bleaker solitudes of unhappy love—bitter, inconsolable.—*James Lane Allen*.

THRUSTON. THE ANTIQUITIES OF TENNESSEE AND THE ADJACENT STATES. The State of Aboriginal Society in the Scale of Civilization represented by them; a series of Historical and Ethnological Studies. Illustrated with Maps, 18 fine full-page plates, and numerous wood-cuts. By General GATES P. THRUSTON, Cor. Sec. Tenn. Historical Society. 8vo. Cloth. Net. 4 00

This work is a most valuable contribution to American archæology. Recent excavations among the mounds and stone grave cemeteries of Tennessee have brought to light a large number of new objects, illustrating the arts and industries of the Mound Builders of the Mississippi Valley. Many of them have been discovered by the author, or under his supervision. More than five hundred of these objects are illustrated in the engravings in this work—a number of them unique and of great interest.

Some of them represent the most advanced types of ancient art yet discovered north of Mexico, and will be of much value in determining the state of aboriginal society in the Mississippi Valley during the era of the mound building tribes.

Images of stone and terra cotta, advanced types of pottery, inscribed stones, pictographs, engraved gorgets representing the human form and the dress of the period, copper-plated objects of stone and terra cotta, plastering trowels, sets of fine implements of stone and bone, rare pipe forms, and many other new and interesting objects will be found among the illustrations. Many of the full-page plates have been prepared by the finest processes of modern art in engraving.

The edition of the book published will not repay the expense of the preparation of the illustrations, but it is the request of the author that the price of the work shall be placed within easy reach of students, collectors, and antiquarians interested in this subject.

The work is highly creditable to the publishers, being neatly printed and tastefully bound. General Thruston has added a substantial contribution to the archæological literature of America. It is not a hasty compilation, to be issued and shelved without comment, but the result of years of patient investigation, and prolonged and well-matured thought. In addition to this it is written in a style well calculated to make a serious subject readable and attractive.—Prof. W. H. Holmes, *Ethnological Bureau*.

This is an excellent book, and is written in excellent style. The author is not confined to technicalities, but takes a broad view of his subject, and throws a light of historical learning into the entire archæological field. In doing so, however, he does not allow himself to be carried away by any theory, and keeps himself free from the charge of special pleading. In this respect it is the most satisfactory treatise yet issued upon the Mound Builders, and comes nearer to a solution of the Mound Builders' problem than any thing heretofore written. The special value of the work, however, is to be found in the description of the relics which

have been gathered, many of which are new finds, and so have never been described before.—*American Antiquarian*.

The reader will find the volume a rich treat in ethnological study. The descriptions are concise, and yet clear and exact, and with comments marking the wide investigations of the author, and his wide knowledge of the subject under discussion. What he has to say briefly of the Mound Builders and the pre-historic races is both interesting and valuable. He believes they were American Indians, and at a period when there was larger intelligence than is found within the historic period. He notes the distinguished difference in the Indian race, north and south, founded upon historic facts of four centuries and more ago. From the relics he traces a direct connection of the Cumberland Valley with the people of New Mexico, Arizona, and further south, and marks them as a people of greater intelligence, yet pointedly typical of the Indian race. We can do no justice to the handsome and instructive volume, and can only commend it as of great value to all interested in archæological and ethnological study.—*Chicago Inter-Ocean*.

TILDEN. KARL AND GRETCHEN'S CHRISTMAS. A Poem. By
LOUISE W. TILDEN. Illustrated. Square 12mo. Cloth. 75

Taking up "Karl and Gretchen's Christmas," as one of the many children's books now appearing, I read it through, and thought it just the prettiest, sweetest and best Christmas story I ever read. Then I read it aloud to the family, and we took a vote unanimously that it is perfectly beautiful, and that it must be the gem of the season, and gladden thousands and tens of thousands of children's hearts and homes this winter.—*S. Irenæus Prime.*

Is sure of a wide circulation on its own merits. Having read three verses we were at once captivated, and we read on until we had finished it, with more and more interest to the end. It is a rare gem. We trust

our readers in search of Christmas presents for the little ones will be sure to secure it.—*Herald and Presbyter.*

It is a sweet and simple story in smoothly flowing verse, telling of two poor children, who, when the Christ-child forgot—as they supposed—to fill their little wooden shoes, went in search of him, and, after getting lost in a driving snow-storm, wandered to a rich man's door, where they were welcomed, fed, clothed, given beautiful presents, and made a friend for life. The publishers have given it attractive binding, pretty pictures, good paper, and type which even a blundering little reader will find easy to decipher.—*American Bookseller.*

TUNISON (F. E.) PRESTO! FROM THE SINGING SCHOOL TO THE MAY MUSICAL FESTIVAL. By FRANK E. TUNISON. 8vo. Paper. 1 00

A complete history of music and musical societies in Cincinnati from the earliest times.

The author has long been recognized as one of the ablest musical critics in the West, and any thing he sees fit to write on music and musicians is bound to be both reliable and interesting.—*Cincinnati Enquirer*.

It is most delightfully written, and is a graphic account of music in Cincinnati from the earliest times until now. It represents a vast amount of research, and though unpretentious in its claims is a very important contribution to the history of our city. Mr. Tunison's reflections, scattered here and there throughout the work, are highly suggestive and to the point. His estimate of the old fashioned singing school is just and worthy of the cultured critic. Every western musician should own a copy of this *brochure* if he desires to be informed on the early history of his art in this part of the country.—*Church's Musical Visitor*.

TUNISON (J. S.) MASTER VIRGIL, THE AUTHOR OF THE *ÆNEID* AS HE SEEMED IN THE MIDDLE AGES. A Series of Studies. By J. S. TUNISON. 8vo. 2 00

CONTENTS: 1. An Apology. 2. Virgil and the Devil. 3. Virgil in Literary Tradition. 4. Virgil's Book of Magic. 5. Virgil the Man of Science. 6. Virgil the Saviour of Rome. 7. Virgil the Lover. 8. Virgil the Prophet. 9. Virgil in Light Literature.

The magical and prophetic character attributed to Virgil is one of the most curious and interesting phases of superstition, and it has not hitherto received the attention of English and American scholars which it deserves. Mr. Tunison's book aims to make up this defect. It discusses the diabolism, the science, and the prejudices—religious and social—of the Middle Ages as they are illustrated in the tales about Virgil. Those who admire the poet will find their interest in his work quickened by a study of his character from an unusual point of view.

A book which ought to excite profoundly the interest of students of Virgil. Mr. Tunison has devoted many years to the study of Virgil, and with much diligence has brought together not merely a *résumé* of the many anecdotes popular during the Middle Ages, which present Virgil in the light of poet, mechanical inventor, lover, magician, and what not, but has subjected them to searching critical study for the purpose of showing the relation of the legends to Virgil as poet and man, and collaterally illuminating the attitude of mediæval scholasticism in the premises.—*The Critic, N. Y.*

This is a curious and interesting work. It may be regarded as a study in myth-making, and it is certainly a most pregnant il-

lustration of the facility with which legends grow up around the memory of some famous personages in ignorant and credulous ages. The poet Virgil was for many centuries the center of one of those cults, and the wildest traditions became incrustated upon his name. Mr. Tunison has in this volume worked a practically virgin field. . . . In the main Mr. Tunison may be followed without misgivings, and he has unquestionably written a series of studies which will be welcomed by all who are interested in Virgil for the sake of his true self and his known works, and also by such as are or have been engaged in the fascinating study of folk-lore.—*New York Tribune*.

TYLER DAVIDSON FOUNTAIN OF CINCINNATI. Donated to the City by Mr. Henry Probasco. Giving a History and Description of the Fountain, Dedicatory Exercises, etc. Large plate and portraits. 18mo. Paper. 25

VAGO. MODELING IN CLAY. Instructions in the Art of Modeling in Clay. By A. L. VAGO. With an Appendix on Modeling in Foliage, etc., for Pottery and Architectural Decoration. By *Benn Pitman*, of Cincinnati School of Design. Illustrated. Square 12mo. Cloth. 1 00

Modeling can not be learned by book instruction, but such information as can be acquired without a master—for instance, regarding the tools and materials to be used, and the mechanical part of the work—is given fully and lucidly in these pages.—*Art Amateur*.

The book gives excellent and practical ideas as to material and tools, and how an amateur should commence. The work does not pretend to instill genius, but it gives the beginner a fair start at his work, and shows him in a concise form what it would take

him a long time to find out for himself in the slow school of experience. Modeling in clay may even be regarded as a pastime. It is a natural art. To many it is much easier to model or carve than to draw.—*Carpenter and Builder*.

It contains a great deal of encouraging information that will be of especial service to young modelers. Apprentices in the modeling rooms of our native potteries should have this book with them as an incentive to correctness in this work.—*Crockery and Glass Journal*.

VAN BUREN. ABRAHAM LINCOLN'S PEN AND VOICE. Containing, in a convenient volume, all his Letters, Civil, Political, and Military, his Public Addresses, Messages, Inaugurals, and Proclamations. Compiled by G. M. VAN BUREN. 12mo. 1 50

It has heretofore been very difficult to find addresses, letters, etc., of President Lincoln, scattered as they are through so many different works. This will therefore be a very convenient volume for reference, containing, as it does forty-eight addresses on various occasions; his two inaugural addresses; ninety-nine letters to his generals; sixteen letters to governors of states; fifteen letters to members of his cabinet; forty letters to civilians; eleven messages to Congress; twelve proclamations; twelve military orders; five thanksgiving proclamations, and a number of miscellaneous papers. Many of them now published for the first time.

To librarians, it will be an invaluable labor-saver reference book. To military and naval officers, worthy of careful study. To lawyers, a source of inspiration. To politicians, a mine of political wisdom. To the general public, a work of the liveliest interest. Every American should have a copy.

All that the great war president declared for himself in his public utterances, whether by message, letter, or speech, is here given in complete quotation. For reference purposes, and as an epitome of Lincoln, the public man, this arrangement will be of great value; while there is a greater value to be had by those who desire to study the man himself through the medium of his own speech, or to see the development of his character or views, as he passed through the mighty scenes of which he was the chief personage. There is hardly a paragraph that does not breathe patriotism, devotion to duty, and a determination to save the Union.—*Magazine of Western History*.

It is strange that a volume like this has not been issued before, in which we could

have, without note or comment, the writings of the man who is continually growing in the estimation of all true Americans. It is well that those things should stand by themselves and show us, as they can not otherwise do in so direct a light, the inexhaustible fund of practical wisdom, of apt command, of remonstrance, of decisive criticism when necessary, possessed by this plain, homely, awkward person. . . . We get in this volume the clear white light of Lincoln's mind as it was affected by the stirring events of the war. Much has been written about the man, but here we have the man himself from day to day governing, advising, presiding over the nation in its time of need. Every citizen ought to possess the volume.—*Public Opinion*.

VAN HORNE. THE HISTORY OF THE ARMY OF THE CUMBERLAND.

Its Organization, Campaigns, and Battles. Written at the Request of Major-General George H. Thomas, chiefly from his Private Military Journal, and Official and other Documents furnished by him. By THOMAS B. VAN HORNE, U. S. A. Library edition. 2 vols. and Atlas. 8vo. Illustrated with twenty-two Campaign and Battle Maps, compiled by *Edward Ruger*, late Superintendent Topographical Engineer Office, Headquarters Department of the Cumberland. Cloth, \$6.00; Sheep, library style, \$8.00; Half morocco, \$10.00.

Write nothing but the truth.—*Major-General George H. Thomas.*

A most accurate and valuable contribution to the history of the rebellion.—*N. Y. Sun.*

The subject-matter is admirable, well arranged, and well digested.—*General W. T. Sherman.*

Chaplain Van Horne has enjoyed very rare advantages in the preparation of his work. First of all is the fact that General Thomas personally requested him to write it, in the emphatic words, "Write nothing but the truth; you will contravene received opinions, and you must fortify yourself." This commission, to those who knew the cautious and conservative Thomas when alive, carries with it great weight as to the capacity of the author for the task, for Thomas was by no means one to bestow such entire confidence without full experience of a man's character. The result is a very careful and elaborate history, which may almost be said to be the product of Thomas' own brain.—*U. S. Army and Navy Journal.*

We hazard nothing in saying that it is by far the most truthful, thorough, and valua-

ble contribution to the military history of the rebellion which has yet been written.—*Philadelphia American Gazette.*

It will be the "book of books" on the war of the rebellion.—*Major-Gen. Joseph Hooker.*

The reader of Van Horne's first work, the History of the Army of the Cumberland, recognized in it the first worthy history of the great war. Although named of that army, its history embraced most of the war in the great interior between the Alleghanies and the Mississippi. It has the clearness and accuracy of details which satisfies both the general reader and the military student, and this is aided by excellent maps. It arose to the accuracy, dignity, and impartiality of history. It is a complete and impartial narration of facts, leaving the drawing of critical judgments to the reader. The reader of that history will readily concede the author's eminent qualifications for writing the military biography of General Thomas, and it is well known that his confidential relations with Thomas, and his being, in fact, his literary executor, give him unequalled advantages for the work.—*Cincinnati Gazette.*

VENABLE. FOOTPRINTS OF THE PIONEERS IN THE OHIO VALLEY.

A Centennial Sketch. By W. H. VENABLE, LL.D. With 25 illustrations by *Farney, Burroughs*, and others. 12mo. 1 00

The contents of this little volume embrace an historical sketch of the settlement of the Ohio Valley, descriptions of early modes of travel by road and river, with particulars as to backwoods life, customs, houses, furniture, etc., and selections of pioneer poetry.

It is made up of a series of sketches of pioneer life, which will vividly recall to older people the real life of the long years ago, and fully entertain and instruct youthful readers. It is not often the reader will find a clearer outline of that eventful period more pleasingly told than in this little volume. . . . No man in the West has more carefully studied pioneer history and seizes more certainly upon its interesting facts, or relates them with more enthusi-

asm, than Professor Venable.—*Chicago Inter-Ocean.*

The book is not large or portentous, but is full of the vital essence of early history of this part of the country. Mr. Venable proves here his wide familiarity with the annals of the West and his ability to give the most important of them in brief compass and a sprightly manner. . . . A well timed and attractive little book.—*Cincinnati Commercial Gazette.*

VENABLE. THE TEACHER'S DREAM, and other Songs of School Days. By W. H. VENABLE. Beautifully illustrated by *Farny*. Small 4to. Cloth. 75

VENABLE. THE BEGINNINGS OF LITERARY CULTURE IN THE OHIO VALLEY. Historical and Biographical sketches—Early Travelers and Analysts; the Pioneer Press; Early Periodicals; the First Libraries; Pioneer Schools; and numerous sketches of Literary Men and Women. By W. H. VENABLE, LL.D. 8vo. Cloth. Net. 3 00

A veritable feast. Such an amazing amount of information, and so attractively presented. Accurate, perspicuous, elegant. The months and months of labor it has cost, and how perfect the achievement. I know of no other man who could have accomplished the work in such a masterly manner. The multitudes of names it mentions will interest thousands of readers. The intelligent and copious index is a strikingly valuable feature of the book.—*A. P. Russell, author of "Library Notes," "A Club of One," etc.*

I don't know when I have had such entertainment from a book. I can not tell you how much I enjoyed it. I was personally acquainted with a considerable proportion of the persons named therein, and your reminiscences of them brought back a flood of memories of the days gone by that filled me with delight. I congratulate you on your success. Your volume will always

be of value to the student of western history. —*J. Fletcher Williams, Librarian of the Minnesota Historical Society.*

It presents valuable information on a fruitful theme, one that always awakens profound interest among intelligent people. . . . Dr. Venable describes several of the earlier poets and story writers, presents a concise view of political orators and oratory, of teachers, schools, and colleges, of travelers and analysts, of beginnings of newspapers in Ohio, of early periodical literature, and other allied subjects too numerous to mention. It is a wide field on which he has roamed, and few authors have gathered a bountiful harvest with more conspicuous success. The book is as entertaining and readable as it is instructive, and as a repository of reference data it will be highly prized by an appreciative public.—*Magazine of American History.*

VENABLE. MELODIES OF THE HEART, Songs of Freedom, and other Poems. By W. H. VENABLE. 12mo. Cloth. 1 50

It seems to me I have never yet read a book of verse which satisfied me more, and I am sure I have read from no minor poet on either side of the ocean so many satisfactory strains as are found in Venable's

"Melodies of the Heart," "Songs of Freedom," and other poems. . . . Such equal strength in love, patriotism, religion, and humor is rarely found.—*A New England Critic.*

These handsome volumes are made up of original contributions to the history of the civil war, by officers who served in the campaigns of which they speak, and who are narrating facts of which they were eye-witnesses. Almost without exception the papers are temperate and serious efforts to throw new light upon the campaigns in which the writers served, and they speak

well for the usefulness of the Loyal Legion as an historical society of no mean importance. When it is remembered that these are records of actual experience, and not compilations from the records, it will be seen that, as material for systematic history in the future, they are invaluable, while they are also attractive and even fascinating reading in themselves.—*The Nation*.

With fine steel portraits of Hon. Thomas Ewing, Sr., Bishop Ames, Judge Ephraim Cutler and Isaac Barker, and General John Brown. By CHARLES M. WALKER. 8vo. \$6 00. Large paper. 2 vols. Imp. 8vo. Cloth. 12 00
Popular Edition. 8vo. White paper. Cloth. 4 00

We have never found a more complete local history, nor one in which the author has more successfully labored to present the annals, the statistics, and the local biographies of a community, with fidelity and elaborate minuteness; and as a specimen of really elegant typography, it is worthy of all praise.—*Historical Magazine*.

The publication of the *Ohio Valley Historical Series*, of which this elegant work forms the second volume, is an enterprise for which men of letters are under deep obligations to the good sense and good taste of the publishers. . . . The present volume, though modest in its pretensions, claiming little more than a local interest, is far more

valuable in its contents than its title or its unpretending preface might lead one to suppose. It embraces a history of the great Ohio Land Company and the first settlement of the State at Marietta, with biographical sketches of the pioneers of that part of Ohio, and a map which possesses considerable historical interest. Quite apart from its intrinsic value, the work also deserves to be prized as a dainty specimen of handiwork, rarely surpassed by the best New York and Boston book-sellers, to say nothing of those of the West. The type is sumptuous, the paper heavy, the binding neat and strong, and the general typographical arrangement extremely tasteful.—*New York Tribune*.

It gives the most explicit directions as to nourishment, both by the breast and bottle, weaning, teething, bathing, clothing, exercise, etc. It is the work of the learned French Society of Hygiene, and contains the best fruits of ten prize essays, collaborated by a special committee of the Society.

WEBB AND JOHNSTON. AN IMPROVED TALLY-BOOK. For the use of Lumber Dealers. With the Walnut Log Scale. By FRANK WEBB and M. C. JOHNSTON. Long 18mo. 50

Each book contains 100 tallies. Its use insures accuracy, requires no counting of tallies or multiplying, and prevents the possibility of making mistakes in counting the boards measured and in multiplying in the old way.

The best thing we have seen in the way of tallying, and insures undoubted accuracy.—*Lumberman's Gazette*.

WHITTAKER. PHYSIOLOGY. Preliminary Course Lectures. By JAMES T. WHITTAKER, M. D. 12mo. Cloth. 1 75

Dr. Whittaker is the professor of physiology and clinical medicine in the Medical College of Ohio, etc. The volume includes twelve lectures for first course students, on the influence of physiology upon practice; the conversation of force; the origin of life, and the evolution of its forms; and on protoplasm, bone, muscle, nerve and blood.

WILLIAMS. DISEASES OF THE EAR. Including the necessary Anatomy of the Organ. Illustrated with numerous wood-cuts and one lithograph. By A. D. WILLIAMS, M. D., of St. Louis, formerly Lecturer on Otology in the Miami Medical College. 8vo. Cloth. 3 50

Dr. Williams has been somewhat familiarly known to our readers as a contributor of articles on diseases of the ear. These are incorporated in the present volume, together with a systematic outline of the anatomy of the ear structure, and its diseases and therapeutics. The book is beautifully printed and abundantly illustrated in all its details, so that the physician or student desirous of treating these diseases, heretofore so troublesome, will have in this book a good and satisfactory guide.—*Lancet and Observer*.

WISE. PRONAOS TO HOLY WRIT. Establishing on Documentary Evidence the Authorship, Date, Form and Contents, of each of its Books and the Authenticity of the Pentateuch. By RABBI ISAAC M. WISE, President Hebrew Union College, Cincinnati. 8vo. Cloth. 1 50

The work is the result of many years' assiduous investigation by one thoroughly acquainted with the original sources of the Bible, the Paraphrases, Translations and Commentaries, up to the Septuagint, 200 B. C., and the Translations up to Ezra, 458 B. C. The book contains: I. Main Divisions and Claims of Holy Writ. II. The First Canon, its original Writ, Material, Author, Date, Contents and Form. III. The Former Prophets, each Book separately analyzed, viz: Joshua, Judges, Samuel, and Kings, the original Material, Dates, Forms, and Contents of each established. IV. The Later Prophets, viz: Isaiah, Jeremiah, Ezekiel and Twelve Minor Prophets; Authors, Dates, Form and Contents of each Book. V. Hagiography, viz: Psalms, Proverbs, Job, the Five Minor Books, Daniel, Ezra, Nehemiah, and Chronicles; critically reviewed, Authors, Dates, Form and Contents established. VI. The Authenticity of the Pentateuch established on Documentary Evidence, the Negative arguments refuted, the Work of Ezra, Great Synod and Massorah fixed. The work is argumentative, original, and perspicuous, the result of ripe scholarship, and will prove a valuable aid to the Bible student.

WITHERS. WILDWOOD CHIMES. By EMMA WITHERS. 12mo. 1 25

In this volume there are forty poems by Miss Withers, all fresh in thought and graceful in expression, and will be enjoyed by every lover of nature. They breathe the atmosphere of her beautiful West Virginia mountains. She inherits the literary instinct from her grandfather, Alexander S. Withers, author of "Chronicles of Border Warfare," and of her more distant relation Sir Walter Scott.

YOUNG. HISTORY OF WAYNE COUNTY, INDIANA. From its First Settlement to the Present Time. With numerous Biographical and Family Sketches. Embellished with upward of Fifty Portraits of Citizens and Views of Buildings. By ANDREW YOUNG. 8vo. Cloth. 2 00

This is a stately volume, printed with clear type, on thick, fine paper. The author appears to have taken great pains in the preparation of this volume, and has made a very valuable contribution to the local history of Indiana.—*Historical Record*.

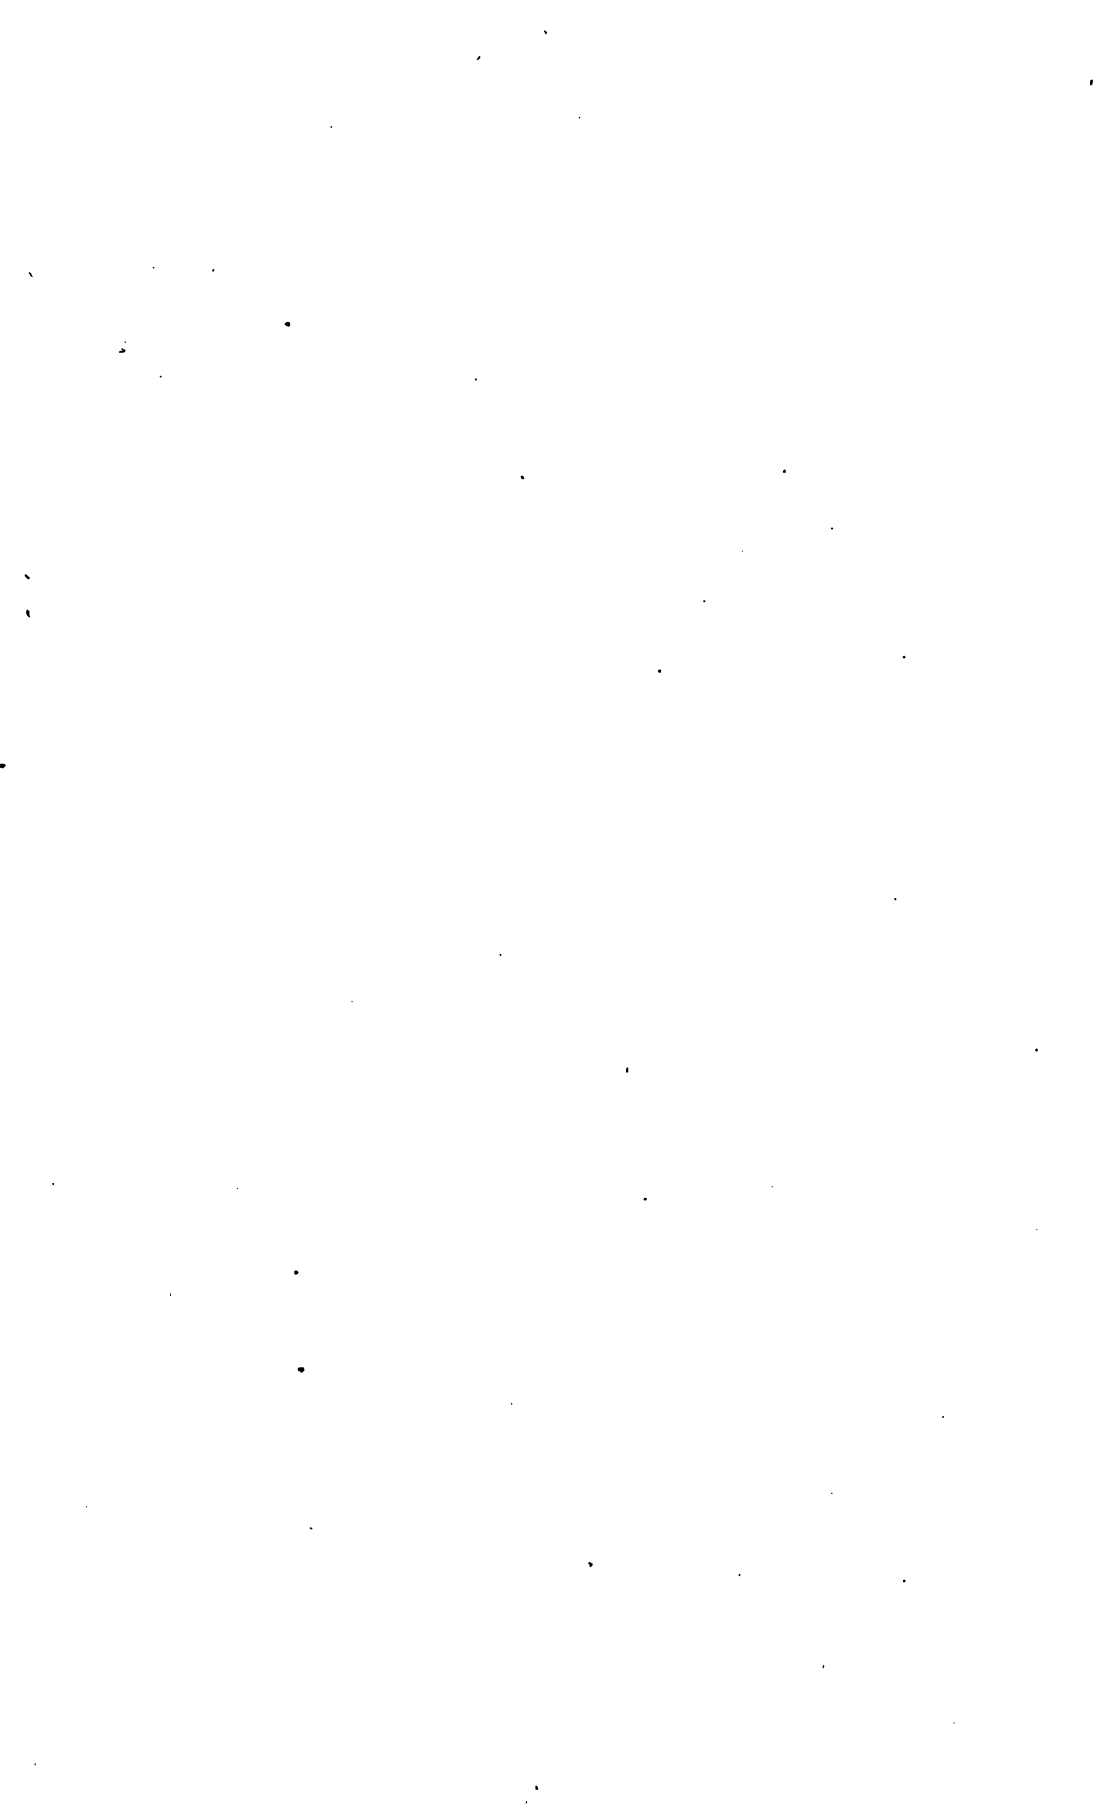

It promises well for the history of "the West," that such a volume as this has been already devoted to a record of the simple annals of a single county; and we congratulate the inhabitants of Wayne county, that they have found one who was both able and willing to perpetuate the history of the heroism of their ancestors, and the prosperity which has crowned their humble labors with so much patient fidelity and so much minuteness. The volume is very neatly printed, and is worthy of an extended circulation.—*Historical Magazine*.

ZEISBERGER. THE DIARY OF DAVID ZEISBERGER, Moravian Missionary among the Indians of Ohio during the years 1781 to 1798. Translated from the Original Manuscript in German by EUGENE F. BLISS. 2 vols. 8vo. Cloth. 6 00

This Diary embraces the most eventful period of the life of this celebrated missionary. It contains an account of the removal of the Indian Church from the Muskingum to the Sandusky; of the journey of the Missionaries to Detroit and their return to Sandusky in 1781; of the removal of the Indian Church to Clinton River, Michigan, the next year, and their settlement there till 1786, when they returned to Ohio, settling on the Cuyahoga and Huron Rivers. There they remained till 1791, when they again crossed the lake to the mouth of the Detroit River, 1791-2. They then established themselves on the River Thames, in Canada, about twenty miles from Detroit. In 1798 Zeisberger returned with a portion of the Indian Church to their old settlement in Tuscarawas county, Ohio. Much is said of the troubles between England and the United States which followed the Revolutionary War and of the machinations of the English among the Indians. An account is given of the massacre at Gnadenhutten in 1782. Incidentally, remarks are made upon the country, the climate, the various people, white and Indian, with whom Zeisberger came in contact.

ZSCHOKKE. A SYLVESTER NIGHT'S ADVENTURE. By HEINRICH ZSCHOKKE. Translated by M. B. W. 12mo. Cloth. 75

This pretty little story occurs in Germany on a New Year's eve. A masker, in a somewhat jolly mood, on his way to a ball, insists upon changing both dresses and occupation with a young nightwatchman; the latter goes to the ball in the masker's silk cloak and plumed hat, and the masker, who is the wild Prince Julian, undertakes to blow the horn and call out the hours. The complications which ensue, especially with the two young men's sweethearts, are very entertaining and capitably told.—*The Publishers' Weekly*.
